## ATTACK MADE UPON BUDGET IS VIGOROUS

Rt. Hon. Winston Churchill Declares Is Bombshell in Every Business House

## BOOKMAKER IS ONLY BENEFIT RECIPIENT

Socialist Chief Declares Statement to Be Capitalist and He Cannot Support It

By GEORGE HAMBLETON  
Canadian Press Staff Representative.

LONDON, April 15.—The budget was assailed in the House of Commons this evening by opposing political philosophies. To Rt. Hon. Winston Churchill, leading Conservative critic, the budget represented a new and unwarranted burden upon industry to provide "fish dories for the eager crowd." To James Mason, leader of Labor's Left wing, the budget was not Socialism at all. It was contrary to Socialist philosophy; it was restoring capitalist industry and capitalist finance, and therefore he could not countenance it.

HAD LARGE AUDIENCE  
And both Mr. Churchill and Mr. Mason had an audience almost as big as that which greeted Rt. Hon. Philip Snowden, Chancellor of the Exchequer, when he fumbled with the keys of his red dispatch box yesterday and revealed its secrets. Through the question hour and the subsequent private bills period there were outbursts of excitement. Laborites repeatedly interrupted when Mr. Churchill began his attack with statistics and epigrams. Nor was the interest any less intense when from among the City members Maxton arose, his long black hair framing a pale face—and with uplifted arm proclaimed himself a distressed and worried man. And not until Mr. Maxton sat down again was there any movement of members from the crowded chamber. Mr. Churchill claimed that of the deficit of £14,522,000 of last year, £9,000,000 was due to the present Government. He asserted that had the old Government remained in power, there would have been no deficit.

## Ridicules Idea Of Bringing Men For Wheat Move

SASKATOON, Sask., April 15.—Characterizing as highly absurd a news despatch from Port Arthur to the effect that 2,000 railway employees would be sent to the East to the Prairies, to move 5,000,000 bushels of grain still in storage to the Lakehead for the opening of navigation, local railroad officials stated that the thing was out of the question. "We have enough men in the West to move 150,000,000 bushels in a very short time was the comment of one local railroad authority."

## Mentioned for Canada

THE PHOTOGRAPH here shows the Duke of Gloucester, one of the King's younger sons, who, in a biography of Queen Mary, by Mrs. Cavendish, is suggested as making an admirable Governor-General for Canada. Observations about other sons of the King and Queen are also made in this striking document.

## Tells Vancouver of What Victoria Does To Help Young Folk

VANCOUVER, April 15.—Eloquent tribute to the work accomplished by service clubs in Canada was paid by His Excellency, Lord Willingdon, in a luncheon address today to representatives of such organizations at the Hotel Vancouver. "You see before you a very tired Governor-General," said His Excellency, in thanking the chairman for his reference to the record of service which Lord Willingdon has made in the Empire.

"After ten days in British Columbia, experiencing overwhelming kindness, courtesy and goodwill on every hand, I am tired and I crave your indulgence for any remarks which I may make this afternoon." His Excellency, thanked service clubs for the work they have done in the past, and expressed the hope that they would continue that fine service to their communities and Canada as a whole.

## CRUSADE HEAD ONCE AGAIN IS ON WARPATH

By THOMAS T. CHAMPION  
(Canadian Press Staff Correspondent)  
LONDON, April 15.—Is the spectre of a separate campaign for free trade within the Empire again to haunt the Conservative party after Mr. Baldwin has supposedly removed it? This interesting possibility is aroused in the public mind tonight by the action of Lord Beaverbrook in writing to the press and declaring his deep dissatisfaction with the present position of the campaign for Empire free trade.

Lord Beaverbrook had been more or less in the background since Rt. Hon. Stanley Baldwin adopted the policy after a fashion, linked with a referendum on the question of taxes on foreign food entering Britain. Now the Canadian-born newspaper magnate attacks a leaflet issued by the Conservative headquarters, entitled "This Is Baldwin's Pledge to You."

Lord Beaverbrook quotes the leaflet as explaining the Conservative party seeks power to go into conference with the Dominions, "in order to make a bargain which will enable us to sell more manufactured goods to them, and if the Dominions then ask us to help them by putting taxes on foreign foodstuffs, and allowing them to enter free, the question will be put to the country by means of a referendum."

Lord Beaverbrook objects to this. "I desire to state as plainly and publicly as possible," he says, "that the Conservative party is not in a position to make such a bargain."

## Jamaica Ginger Believed to Be Disease Cause

BOSTON, Mass., April 15.—Medical means of combating cases of paralysis believed caused by drinking Jamaica ginger, were sought here today with the toll over the state during the week-end having risen to three and more.  
Sixteen persons have been taken to hospital in Worcester, thirteen in Newburyport, nine in Lawrence and three in Westford. The victims are all suffering from partial paralysis of the limbs. No deaths occurred and none are believed to be in a serious condition.  
Study of symptoms of the cases, Dr. George H. Bigelow, state health commissioner, said, indicated that they were not caused by wood or grain alcohol. A search for higher alcohols with special toxicity or poisonous constituents was begun.

## Great Fires Sweep Acres In Virginia

(Associated Press)  
RICHMOND, Va., April 15.—Firefighters, toiling for days along many miles of forest lines, were encouraged today by prospects of soon getting under control the conflagrations which have wrought an unestimated amount of damage to timber, dwellings and barns over some 50,000 acres in widely scattered sections of Western and Southwestern Virginia.  
Intermittent showers since yesterday had aided the fire fighters in some sections. The six or more fires in the Government reservation, near Harrisonburg, were reported by the Shenandoah National Forestry headquarters to be under control.  
The Blue Ridge Mountain fire in the area of the proposed Shenandoah National Park continued to burn, after sweeping over more than 10,000 acres of woodlands. More than 100 men were gathered to battle this fire, which started last Thursday, was today reported burning along a fifteen-mile front.

## MURDER CASE VERDICT IS NOT GUILTY

Accused Takes Stand on Own Behalf and Tells Story of Death of Hamilton

## DECLARES DEAD MAN WORRIED OVER WORK

NANAIMO, April 15.—The trial of Peter Smith, charged with the murder of Archie Hamilton, near Hilliers, on February 25 last, continued in Assize Court this morning when evidence was given for the Crown by Dr. Davidson, of Quilicura; Dr. Ingham, of Nanaimo; Constable Gairly; Donald Dickson, Albert Ricker and Norman Lowe.

**MEDICAL EVIDENCE**  
Dr. Davidson, who was called to visit the scene of the tragedy when it was first reported that Hamilton had committed suicide, stated that upon arriving he found Hamilton dead from a gunshot wound, which, in his opinion, owing to the direction in which the bullet had traveled, could not have been self-inflicted.  
Dr. Ingham, who conducted a post-mortem, corroborated the statements of Dr. Davidson.

**SCOUTS AND SOLARIUM**  
"I would like to refer to the work you are doing among the young people—holiday camps and playgrounds in Victoria the other day I helped open a new district headquarters for the Scouts of that district, and I found that the erection and completion of that building was due, to a large extent, to the efforts of the Kiwanis Club."

## Bishop and Wife Take Plane Trip Going to London

(Canadian Press)  
TORONTO, Ont., April 15.—By aeroplane from Akivik, the headquarters of the Anglican diocese of Mackenzie River, to Edmonton, a distance of 2,000 miles in seven hours, was the record set up by Rt. Rev. John G. Gieseler, bishop of Mackenzie River, who, accompanied by Mrs. Gieseler, arrived here today en route to London for the Lambeth conference.

The bishop commenced his work as head of the far-flung diocese last summer, following his consecration, and the quick trip out of the North to the Alberta capital, where they arrived March 30, was made with Captain W. R. "Wop" May.

## ELOPEMENT COST \$7

NEW YORK, April 15.—The New York American today says the elopement of Eleanor Hutton, debutante heiress, and Preston Sturges, successful playwright, was staged on a total expenditure of \$7, and that was borrowed money.

## Their Excellencies Have Busy Time at Vancouver In Filling Engagements

VANCOUVER, April 15.—Curtailments which have been made in the social programme of Their Excellencies, Lord and Lady Willingdon, since Monday, are results of objections by the Governor-General to attending dances during Holy Week. Commenting on the fact that two dance engagements for the first days of the present week have been changed to dinner entertainments, members of the viceregal staff explained that the programme had been laid out more than one month ago, and that, inadvertently the fact that these engagements were during Holy Week had been overlooked.

## WILL ATTEND SERVICE

Their Excellencies plan to attend service on Good Friday. On Sunday they will be at early communion at St. John's Church, and the regular morning service at Christ Church.  
On Monday afternoon, Lady Willingdon paid a visit to St. Paul's Hospital. She was met at the entrance by the chaplain, and Sister Gertrude, and escorted through the hospital by Miss M. Rogerson, Miss Mabel Dutton, Miss

## GRAVE RIOTS AND ARRESTS IN CALCUTTA

Outbreaks of Serious Nature Take Place in City and Many Are Badly Injured

## PRIVATE SECRETARY OF MAHATMA TAKEN

Police, Aided by Armored Cars, Have Trouble in Putting End to Violence in Streets

(Associated Press)

CALCUTTA, April 15.—Rioting and arrests marked today's progress in the civil disobedience campaign, although the leader, Mahatma Gandhi, tonight was still free.

Observance of a hartal (day of mourning), in protest against the arrest and conviction of Pandit Jawaharlal Nehru and Mayor M. Sengupta, of Calcutta, leaders in the Gandhi movement, caused serious riots in Calcutta. Minor outbreaks north of the city resulted in many persons being sent to hospital and in much destruction.

**OFFICIALS INJURED**  
At least seven British officials, a British woman, motorcyclist and many members of the Calcutta Fire Brigade were injured during a battle between students, other sympathizers, and a detachment of British troops, who had been sent to restore order late in the afternoon.

At Karachi, a hartal also was observed, although the day passed without incident.  
Today's outstanding arrest was that of Mahadev Desai, Gandhi's private secretary, who had been left in charge of the Gandhi School at Ahmedabad. The leader remains immune although a police superintendent, claiming that he was watching Desai, stated that he was preparing plans for the manufacture of forbidden salt. After

## MANY TENDERS FOR LANDINGS OF NEW FERRY

With nine tenders for the construction of the Fulford Harbor landing for the ferry, which is to connect Salt Spring Island with Victoria by way of Swartz Bay, and eight for the landing at this latter point, the Department of Public Works is now in possession of the material necessary for the early start of the new connection. Tenders were opened yesterday afternoon in the offices of the department by Hon. W. A. McKenzie, acting minister. In most cases the bidders were prepared to have the works in place ready for the operation of the ferry by June 1.

## VARIETY OF TENDERS

In all but one case the tenders put in bids for both the landings. In one case the figures were different, should the contract be for only one of the terminal undertakings. In the instance of the wharf was expressed to handle only one of the works, and in others the bids were dependent upon receiving both of them.

The officials of the department will therefore take a little time to go into the whole situation, but it is the hope of the department to be ready with an announcement as to the result at an early date, so that work may commence on these wharves.

## THE TENDERS

The tenders were as follows: Vancouver Pile Driving & Construction Company, for Fulford Harbor landing, \$5,147.20; for Swartz Bay landing, \$5,147.20.

## Lords Reinstate Capital Penalty For Cowardice

LONDON, April 15.—The House of Lords, by a vote of forty-five to twelve, reinstated a clause providing the death penalty for cowardice and desertion in the Army Bill. The House of Commons early this month approved a Labor amendment to the bill abolishing the death penalty for desertion on active service and cowardice in certain cases.  
The bill will be returned to the Commons for consideration of the Lords' amendment. The House will meet Thursday to receive the bill instead of adjourning tonight for Easter.

## Expected to Visit City in Autumn

H.R.H. THE PRINCE OF WALES  
Who is planning to come to Canada again this year. According to British Columbia friends who met him recently in London his visit would not be before the Autumn, when he intends, after visiting his ranch near High River, Alberta, to come out to the Pacific Coast of Vancouver and Victoria.

## POWERS ABLE TO BUILD AS FELT NEEDED

Safeguarding Clause Is Agreed to and Will Be Incorporated in Full Treaty

## POSSIBLY MAY BE DELAY IN SIGNING

(Associated Press)

LONDON, April 15.—Rapid progress of drafting the London naval treaty continued today, and the important "safeguarding" or "escape" clause was agreed upon in principle by the American and British chief delegates.

This section will protect Great Britain, United States and Japan against possible competitive naval building by nations not signatory to the tri-partite agreement—a signatory power may, if its building programme is threatened by a non-signatory power, build to a higher level than that provided in the three-power treaty. The levels of the two other signatories will rise at the same time.

## BROADER SCOPE

It is understood that a clause broader in scope than article twenty-one of the Washington treaty has been accepted. In reliable American quarters it was thought that the consultative element of article twenty-one would be eliminated, the London treaty clause providing for a simple declarative statement from any of the three powers of an intention to increase construction because of undue building by an outside power.

## N. Dakota Wheat Area To Be Less

(Associated Press)  
WASHINGTON, D.C., April 15.—Governor George F. Schafer, of North Dakota, and Mr. John L. Coulter, chief economist of the tariff commission, told Chairman Alexander Legge yesterday that substantial reductions in both hard and soft spring wheat acreages may be expected in North Dakota and neighboring areas covered by a special survey made by Mr. Coulter.

The Eastern section of North Dakota, the chairman said, is expected to reduce its acreage of durum wheat more than the 15 per cent forecast by the Department of Agriculture. The reduction of hard spring wheat in the Western section will be less, but of considerable importance.

## Srenuous Search Being Made for Missing Boys But Is Not Successful

VANCOUVER, April 15.—One Provincial Police launch, the city police boat, a Department of National Revenue cruiser dispatcher, privately-owned craft, seaplanes and the radio have been enlisted in the search for three Vancouver youths who left Spanish Banks on Sunday morning in a canoe for Howe Sound, and have not been heard of since.

Boats and seaplanes combed the shores of the Gulf of Georgia and Howe Sound this morning, but at noon all attempts to locate the missing youths, Charles Westman, eighteen; Rodrick Morrison, seventeen; and George Smith, twenty-one, had proved futile.  
**PROVINCIAL POLICE OUT**  
The provincial police launch of Vancouver continued the search this afternoon. Aboard the city police boat is Mr. A. B. Morrison.

## BANKERS WILL HELP BRITISH INDUSTRY

Formation of Bankers' Industrial Development Company Announced in House of Commons—Bank of England Is at Head and Financial Institutions Are Ready to Assist

## Government Plays No Part In Movement Now on Foot

By GEORGE HAMBLETON  
Canadian Press Staff Correspondent.

LONDON, April 15.—Rt. Hon. J. H. Thomas outlined in Parliament today the latest scheme for bolstering up Britain's export trade. It is the formation of the Bankers' Industrial Development Company, an organization which has the strongest of financial backing and which will aid in the reorganization and rationalization of the basic industries of Great Britain. Mr. Thomas declared the organization had been registered at Somerset House today with a nominal capital of £6,000,000 (about \$30,000,000). This was in forty-five "A" shares, each of a value of £100,000 (\$500,000).

## INFLUENTIAL SUPPORT

The company has the support of a very considerable proportion of most of the influential banking and financial institutions of the country, by which the shares have been subscribed, Mr. Thomas explained. The Securities Management Trust Limited has subscribed the "B" shares. The company is to receive and consider schemes submitted by basic industries for the purpose of rationalization, either by industries or by regions. In other words, the capital will be made available for combining various groups of businesses in the interests of general efficiency and elimination of waste, but no public money will be involved, Mr. Thomas made plain.

He declared the directors of the new company are Rt. Hon. Montague Norman, Governor of the Bank of England, chairman (Sir Guy Granet, alternate); Baron Bruno Schroder (Major Albert de Paas, alternate); Mr. A. E. Waag (Mr. Nigel Campbell, alternate); Mr. S. R. Cock, native of Glenagarry, Ontario, and Mr. C. Bruce Gardner, managing director of Securities Management Trust.

## ADVISORY COUNCIL

In addition to this strong directorate, the company will have the services of an advisory council, on which a number of influential financial leaders will be invited to serve. The advisory council will have no other duties to perform, its members, either collectively or individually, being available to the board of directors in a consultative capacity.

In the case of schemes which may be approved, arrangements will be made for provision in one way or another, and through existing agency, of such moneys as may seem to be essential, Mr. Thomas declared.

## ADVANCE TAX PREPAYMENTS REVEAL GAIN

The prepayment of civic taxes system continues in popularity, with a larger number of taxpayers paying their financial obligations to the city in advance during the first three and one-half months of this year, as compared with a similar period during 1929, and a larger sum of money being paid the city under this plan this year than in the corresponding time last year.

The sum of \$300,000.30 was paid to the city treasury up to and including April 15 this year in pre-paid taxes by 1,225 persons, and a total of \$1,558.25 will be rebated in interest to these taxpayers during the same period in 1929 the city received \$253,812.79 in advance taxes from 1,184 citizens, with a total of \$9,772.72 rebated to them in interest.

Thus the 1930 record shows that the prepayments in taxes to the city are nearly \$50,000 in excess of the amount it received up to April 15 last year, also, 141 more ratepayers have this year taken advantage of the facilities at their disposal than was the case during the first three and one-half months of 1929.

Payment of taxes in advance may be made this year up to August 31. The city allows 6 per cent interest on the money prepaid from the date the money reaches City Treasurer Edwin C. Smith's office at the City Hall until September 30, 1930.

This prepayment of taxes scheme was inaugurated in 1922 by City Treasurer Smith and with each succeeding year a larger number of ratepayers have taken advantage of paying their current taxes under the system, which has been made as flexible as possible so that the taxpayer chooses the time and the amount of payment.

## CONTROL OF B.C. PACKERS COMING WEST

Consider It Best Affairs Should Be Handled on Scene of Operations and Not in East

### COAST MEMBERS ARE ELECTED TO BOARD

TORONTO, April 15.—Control of the British Columbia Packers will pass from Eastern Canada to the Pacific Coast, the seat of operations, it was intimated at the annual general meeting held here today.

President Aemilius Jarvis stated it was the intention to call a special meeting of shareholders to approve a by-law increasing the directorate from six to ten members, choosing the new members chiefly from men on the Pacific Coast. He resigned from the presidency, and Mr. Stanley Burke, of Vancouver, was elected in his place. Mr. Aemilius Jarvis was appointed chairman of the board; Mr. Richard J. Gosse, vice-president and managing director; Mr. Robert C. Gosse, vice-president; Mr. J. H. Gundy, of Toronto, and Mr. F. E. Burke, of Vancouver, directors; and Mr. F. R. Bartlett, of Vancouver, secretary-treasurer.

**THANK MR. JARVIS**

Mr. Gosse moved a resolution commending Mr. Jarvis for his work in the past, and regret at his desire to retire from the presidency. He has been associated with the company since 1902.

A resolution was passed by the shareholders commending the officers for their past services.

Growth of the business, the need for having the active control near where actual operations were being carried on, were suggested as reasons for increasing the number of Western directors.

President Jarvis said conditions in the packing industry were on the mend, and they looked for better results. Rather than the waters becoming depleted of fish, they were actually becoming better stocked, records show.

**FRASER RIVER SALMON**

The case of the sockeye salmon in the Fraser was a possible exception, but lately their number had also been increasing, strict regulation by authorities was responsible.

That Canada would shortly be more favorably situated with regard to the Fraser River catch was the opinion expressed by Managing Director R. J. Gosse.

At present a sixteen-year treaty is being negotiated between Canada and the United States, whereby both countries would be entitled to 50 per cent of the haul from the Fraser River. To ascend the river the fish have to pass through United States waters, and since 1913, United States fishermen have been entitled to 75 per cent of the catch and Canadians to only 25 per cent. Cost of rehabilitating the waters would be shared by the two countries equally.

Mr. Gosse was very hopeful of the treaty being concluded.

It was stated no loss in revenue would be occasioned because of the burning of two of the company's canneries, and that they would be replaced in order to keep the licences.

Retirement of Mr. P. W. Grandjean was announced, the vacancy being filled by the election of Mr. J. H. Gundy.

At a private dinner attended by the Lieutenant-Governor during his stay in London, at which Mr. MacDonald and Lord Thompson were present, the subject of apples came up; and to the astonishment of His Honor the admission was made by these two statesmen that they had never tasted British Columbia apples.

This was speedily rectified by Mr. Bruce, who arranged with the provincial representatives in London that a box of the provincial apples were given a place in the households of these two Imperial statesmen.

River pollution in England has become so serious that its elimination is being made a national problem.

where critical conditions are caused by these clubs. They always want me to speak—I can't get out of it—and as the Governor General is not allowed to say a word on public affairs, you will understand that this Governor General is becoming almost a genius for talking for a quarter of an hour without committing himself to anything.

"Then," continued His Excellency, jocularly, "I might give you my opinion on the budget of Mr. Snowden, on the sixpence more on the income tax and on the increase to the super-tax. But I think perhaps I had better refrain."

"Not long ago," continued the speaker, "I made an observation about the West Indies which at the time I regarded as perfectly harmless, but later I learned through my newspaper, and I fled to the West. I do not regret it. It is my pride and pleasure that toward the end of my service, His Majesty did me the great honor to make me his personal representative in Canada."

He had, said His Excellency, found Canada loyal to the King and keen to build a united Empire, more and more interested in affairs of great international concern. He visioned the Canada of the future as a nation grown to full strength, fairly and justly governed, closely associated with other parts of the Empire and friendly with its great neighbor on the South.

In a strong united Empire, said His Excellency, he saw the world nearer to the end for which service clubs work—peace and goodwill among nations.

Mr. Maxton emphatically declared that a Socialist he was not prepared to endorse the budget. He thought the party opposite, the Conservatives—were in their hearts cheerful because they had offed far more easily than they had expected, or were entitled to believe.

**TAKES CAPITALIST VIEW**

The budget was more in keeping with Conservative than Liberal or Labor views, he declared. Mr. Snowden was being too optimistic in restoring industry and finance and encouraging private enterprise by imposing upon it the minimum taxation. He was not so stupid as to think the policies of Labor and the nation could be fulfilled in one parliament, but he asked that while the constructive schemes were being put through, and while statesmen were thinking and planning, no person in the land should suffer starvation, fear, starvation, and that was not true today.

"The Conservative party opposed widows' pensions and unemployment, but screamed like a wolf when at the sixpence increase on the income tax," Mr. Maxton declared.

WOODSTOCK, Ont., April 15.—Archie McMillan, Goderich, who reported to have lost his wife two months after his wife had positively identified the remains of a man frozen near Milton as those of her husband, said today that he had been working for various farmers last Summer. Mr. J. Forbes, superintendent, states he was also in the Refuge for some time the previous Winter.

EMMETT, Idaho, April 15.—John C. McCuan, convicted of the murder of his wife, Mary, was sentenced today to hang in the Idaho penitentiary on Friday, June 13.

Sentence was pronounced by Judge A. G. Sutton, in line with the verdict of the jury, which last Saturday night found him guilty and demanded the death penalty.

This is not in consonance either with the policy which the Empire crusaders advocated, nor with the arrangement under which we accepted the referendum in order to facilitate adoption of that policy by the Conservative party.

**TAX RATE LOWER**

NEW WESTMINSTER, April 15.—The city council in committee of the whole tentatively set the tax rate at fifty-six mills, which is half a mill lower than last year's rate.

The minimum wage for laborers, which the council set at \$5 a few days ago, was reduced to \$4.75.

## LIVING COST TO INCREASE

DISPUTE OVER GERMAN BUDGET WILL REACT ON INDIVIDUAL POCKETS

Imports Are Likely to Be Seriously Cut by New and Higher Duties

By EDGAR ANSEL MOWER (Copyright, 1930, by The Chicago Daily News-Publishing Service.)

BERLIN, Germany, April 15.—The only concrete results of the long Reichstag debate over the budget and the so-called farmers' programme which accompanied it (just adopted by the Legislature) will be a rise in living costs in this already much over-burdened country.

The chief result is in duties on foodstuffs. The grain duties are not to be fixed at all, but the Cabinet will be allowed to modify the rates, if necessary, twice a year in order to keep prices high enough to satisfy the grain-growing farmers.

Worst of all are the duties on eggs, milk, lard and bacon. German market gardening and dairying are backward. Under the pressure of foreign, chiefly Danish, competition, the Germans were gradually being forced to improve methods. The reasons for doing this will now cease.

The new duty on imported pigs and pork may be raised to such an extent as to nullify any advantage to the Poles from the signed, but still unratified, commercial treaty with Germany. It is even possible that the Poles may decide that the treaty is undesirable under these circumstances.

The new tariffs will weigh chiefly on the working classes and are a result of the coalition between the industrial owners and farmers, chiefly large landowners. The industrial groups were coalesced with the Socialists, but when they drove the latter from the Cabinet they had to seek new allies among the farmers. As a result, prices will rise still further all along the line, especially as the new budget demands an increase of the turnover tax, the special tax on large department stores and the taxes on beer, tobacco and sugar.

American commercial experts foresee new large tariff increases in electrical apparatus, hardware, abrasives, automotive products, cotton and wool yarns and machinery. This will mean a further increase in the cost of American exports to Germany, chiefly motor cars, sewing machines, typewriters and other American specialties. Unfortunately, the view of the recent American tariff, Americans wishing to protest have not a leg to stand on.

Critics note sarcastically that when the European states at Geneva talk heroically of lowering tariffs, of a tariff holiday and even of an economic federation of Europe, single states raise duties constantly and further affect unfavorably the general European economy.

Just a few years ago we placed it on the market. Instead of urging a purchase, we said "WAIT, don't buy now." We asked men to try it first—at our risk. Today Palmolive Shaving Cream is an astounding success . . . in a sharply competitive field. Millions of men tried it. 87 out of every hundred, records show, forsook old favorites for Palmolive. And that's a whole of a batting average in any league.

**URGENT WOMEN TO WORK**

Gandhi spent the day in Umber, where he spoke twice. He exhorted a group of women to take part in the campaign and called attention to the arrest of Pandit Nehru, saying "He has been punished because he is the greatest of us all."

His second speech was to the men whom he urged to defend the salt pans, as symbols of their principles, with their lives. "From your sufferings will rise into being not only complete independence, but a non-violent army for its defence," he said.

Answering a telegram from the President of Bombay provincial committee inviting him to Bombay, Gandhi replied: "I am hourly needed in Gujarat to consolidate my work, but I will come when I am absolutely needed."

The disobedience leaders of Madras lost their automobiles today because of activity in the campaign. They were the former assemblyman Prakasam and a newspaper editor, Nagaswami Rao. When they refused to pay fines of 500 rupees their cars were taken.

**PALMOLIVE Shaving Cream**

## Your turn to try Palmolive Shaving Cream at our Risk! Millions now use it

BEFORE we made a single tube of shaving cream we went to 1,000 men for advice. We asked them what they wanted in their ideal shaving preparation. With this goal, our chemists tried and discarded 120 different formulas before they found the one we knew would win men's confidence.

Now, make this test on your face! Doubtless your present shaving preparation is satisfactory. Still there may be a better way.

Here's a shaving cream that gives you a comforting, close shave no matter how tough your beard or how tender your skin. Try it tomorrow morning! We'll pay, if Palmolive Shaving Cream fails to win you!

Just a few years ago we placed it on the market. Instead of urging a purchase, we said "WAIT, don't buy now." We asked men to try it first—at our risk. Today Palmolive Shaving Cream is an astounding success . . . in a sharply competitive field. Millions of men tried it. 87 out of every hundred, records show, forsook old favorites for Palmolive. And that's a whole of a batting average in any league.

**5 amazing NEW features**

1. Multiplies itself in lather 250 times.
2. Softens the beard in one minute.
3. Maintains its creamy richness for 10 minutes on the face.
4. Strong bubbles hold the hairs erect for cutting.
5. Fine after-effects due to palm and olive oil content.

**Here's Our Offer:**  
Buy a tube of Palmolive Shaving Cream. Use half. Then, if you're not satisfied this is the finest shaving cream you've ever used, return the half empty tube to your druggist. He'll return to you in cash the full price you paid for the whole tube. We will pay him the same amount in cash.

**PALMOLIVE SHAVING CREAM**

"Mollie," said her mother, "you were very restless in church."

"Was I?" was the penitent response.

"You never see daddy behaving that way. Why couldn't you be quiet like him?"

In accordance with the cost of living, sliding scale wages of building trades workers of London have just been reduced one cent an hour.

### No Objection to C.P.R.'s Request For Lots Offered

THE Department of Marine and Fisheries will be advised that the Victoria City Council offers no objection to the application being made by the Canadian Pacific Railway for a grant or a lease of six water lots on the southern side of Victoria Harbor, below Belleville Street.

J. Taylor, K.C., and Mr. A. J. Patton appeared with Mr. H. A. Beckwith for the plaintiffs. Mr. E. J. Grant for the defendant, and Mr. A. E. Bull for Dr. Burden.

Evidence presented for the plaintiffs by themselves and by Dr. J. H. Moore and Dr. J. M. Fowler was to the effect that the collision had occurred, that the injuries had resulted, and the defendants were, respectively, the drivers of the cars.

No suit had been brought by one driver against the other and the plaintiffs, who were passengers in the car, present evidence to show which driver was to blame or that both of them were to blame. For this reason, counsel for the defence then asked the court to dismiss the action.

**THOM RELEASED**  
Mr. Justice Murphy observed that no evidence had been presented to show that Thom was at fault, but that the statement of one witness to the effect that Dr. Burden had been driving very fast was the nature of evidence against him.

Mr. Taylor proceeded to read passages from the testimony given by Dr. Burden when examined in discovery as evidence against Thom. This was objected to, and the court sustained the objection, ruling that the examination for discovery of one defendant could not be used as evidence against the other.

**THOM BLAMED**  
Witnesses called on behalf of Dr. Burden testified that at the time of the collision he had been driving at a moderate rate of speed, and on the proper side of the road; also that the car driven by Thom had swerved over from what was for the right side of the road, and had been on the wrong side of the road when the collision occurred.

At the request of counsel for the plaintiffs, it was decided to view the scene of the accident before proceeding further with the case.

### MONTREAL-GENOA RECORD IS MADE

Marchese Marconi Carries on Conversation Through Transatlantic Wireless Telephone

MONTREAL, April 15.—The high state of efficiency that wireless telephoning, as developed by Marconi, has attained, was clearly demonstrated at the Canadian Marconi Company's office here recently.

Mr. H. M. Short, managing director of the Canadian Marconi Company at Montreal, received a cable at 3:30 p.m. to stand by for a wireless telephone message from Marchese Marconi aboard his yacht Elettra, in Genoa harbor. Despite the great distance to be spanned and the fact that the Marchese's yacht stood amidst all the crowded shipping of a cosmopolitan harbor, only half an hour later communication was established, and Mr. Short was talking clearly with the Marchese Marconi, world-renowned inventor of wireless.

Later, Mr. J. H. Thompson, chief engineer, and Mr. L. A. Payne, assistant chief engineer of the Canadian Marconi Company, Montreal, conversed with Mr. G. A. Mathieu, Marconi's personal engineer, aboard the yacht Elettra.

The voices at both ends were heard with the utmost ease and clarity, thus proving conclusively that wireless telephoning is an established, efficient mode of communication.

## Mt. Tolmie on Easter Morn, Last Year

AT THE EIGHTH Easter Sunrise Service to be held on Mt. Tolmie on Easter morn, April 20, at 7 o'clock, a gowned choir and orchestra will lead in song and hymn singing. Dr. Clem Davies will conduct the service and preach, while a thirty-six-page program will be distributed as a souvenir. The general service of morning worship and prayer in the Episcopal Church is to be used. In order that everybody desirous of attending may do so, the transportation systems are planning to extend their services to the limit from every corner of the city. The cross on the summit of the mount was completed by Neon Products, Limited, and is now blazing out its cue for Easter worship. The Saanich Beaches and Parks Committee have visited the mount and have decided to put the road in good shape for motor traffic.

## Tenders Opened for Part Of Dewdney Trunk Road

Bids Are Received for Sections of Two Important Highways Out of Vancouver—Policy Regarding Publicity of Unit Prices

The office of the Deputy Minister of Finance was crowded to capacity yesterday afternoon by interested contractors when Hon. W. A. McKenzie, acting minister of the department, opened tenders for three sections of road work on the Mainland. Two of these were for sections of the Dewdney Trunk Road, and the third for a part of the Yale Road. In addition to these road tenders, was also that for the construction of the landings for the ferry which is to connect Salt Spring Island with this city by Swartz Bay, and which brought several more interested tenders.

As is the practice of the department, the tenders were opened in public. The General Construction Company, represented by Mr. J. Boyd, appeared to be the low bidder in each of the road jobs, but the prices will be checked up by the officials of the department, in order to ascertain whether there has been any misstatement made in the figures before the awards are made.

**UNIT PRICES**  
A question was asked during the progress of the opening of the tenders whether it was the practice to give the unit prices submitted by the tenderers. Mr. G. P. Napier, at the request of a contractor, asked the information that this was not usual. The reason for this was that in revealing the unit prices as submitted by the tenderers, it would be a competitive tender, not on this particular job, but on some other. It was not deemed fair to give the price upon which one tenderer based his bid when the one making use of it later was not revealing his prices.

**FIRST SECTION**  
For the Silverdale-Mission section of the Dewdney Trunk Road, the following tenders were submitted: General Construction Company, \$122,850, to complete work by September 1; Fraser Construction Company, \$125,591, to complete work by September 1; Dawson, Wade & Co., \$130,549.25, to complete work by September 1; Stewart & Barber, \$152,315.10, to complete work by December 15; Pacific Engineers, \$165,375.50, to complete work by September 1; Coast Quarries, Ltd., \$180,597.50, to complete work by November 1.

**SECOND SECTION**  
For the section of the Dewdney Trunk Road from Hunter Creek to Kanaka Creek there were eight tenders as follows: General Construction Company, \$17,278, to complete work by September 1; West Construction Company, \$48,750, to complete work by September 30; King Moncrieff Construction Company, \$50,287.50, to complete within four months of the awarding of the contract; Dawson, Wade & Co., \$51,800, to complete by August 31; Harrison Lamonde Construction Company, \$70,052.50; Ellis Cotton, \$75,056, to complete work by July 12.

**THIRD SECTION**  
There were seven tenders submitted for a section of the Yale Road between Alderbrook and Alderbrook. These were as follows: General Construction Company, \$24,755, to complete work by September 1; King Moncrieff Construction Company, \$27,428, to complete work in four months; Dawson, Wade & Co., \$28,202.70, to complete work by June 30; West Construction Company, \$29,022.50, to complete work by September 1; Montzambert & Company, \$33,185.50; Columbia Building, \$34,400, to complete by June 30; West Construction Company, \$36,280, to complete work by July 31.

**RECENT GERMAN BOMBING HAVE POLITICAL CAUSE**  
By EDGAR ANSEL MOWLER  
(Copyright, 1930, by The Chicago Daily News Foreign Service.)

BERLIN, April 15.—The most recent German bombing outrages, which occurred on March 15 in the towns of Bad Oldesloe and Neumunster, now appear to be the outcome of a blackmail racket in the Chicago sense, but of a Fascist campaign against the Young plan.

The police claim that only great luck prevented the complete destruction of the Bad Oldesloe town hall.

The supposed bomb layers, who now have been arrested, are a chemist, Doctor Hellmann, the saddler, Paul Koch, and the merchants, Rudolf Mueller and Wilhelm Moellendorf. They belong to a youth branch of the ultranationalist steel helmet group. The arrested apparently admit the act and give as their motives the hope of exciting Germans to repudiate the Young plan, which had been passed by the Reichstag the day before.

### Unemployment in Winnipeg Is but Little Lessened

WINNIPEG, Man., April 15.—Unemployment conditions in the city continue serious, and in view of this, the city council last night endorsed a resolution granting a three weeks' extension of relief for unemployed married men and one week's relief for single men.

Unemployment relief for the past Winter has already amounted to \$200,000, as compared with \$27,000 expended in the Winter of 1928-29. In straight relief to married men and families, \$64,300 has been paid, and \$22,170 in special relief wages. A sum of \$47,365 was paid to single men.

### Majestic Council

The meeting of the Majestic Council of the Royal Arcanum, held in the Elks' Club lodge room Monday evening, was an outstanding success, with an attendance of over 50 per cent of the members. Following the initiation of seven new members, the drill team gave an exhibition, under the command of Team Captain Past Regent James Stewart, after which a photographic session was taken of the team in its new regalia by Brother Paul Michellin.

An interesting programme of entertainment, which comprised vocal solos by Brother Douglas Parks and piano solos by Brother Paul Michellin, was enjoyed.

## DELEGATION TO WAIT ON BOARD

Saanich Parents Want Children in Victoria Day Parade and Will Ask Trustees to Act

In order that the school children of the municipality may have an opportunity of participating in the Victoria Day parade, a delegation of parents is now being formed for the purpose of waiting on the Saanich School Board to urge the issuance of instructions enabling the children to take part.

The suggestion was placed before the Saanich members of the Victoria and District Teachers' Association, and it is understood that the delegation will have the support of some of the teachers when the board is approached.

### JUDGMENT RESERVED

At the conclusion of evidence and argument in the Supreme Court in the action brought by W. T. H. Lubbe against the Esquimalt Waterworks Company and others, judgment was reserved by Mr. Justice Murphy. Mr. Frank Higgins, K.C., appeared for the plaintiff, Mr. H. A. Maclean, K.C., for the company and most of the defendants, and Mr. H. W. Davey and Mr. H. W. R. Moore for individual defendants.

### Leading Bull Expert Will Judge Show

C. A. Van Waveren, a nephew of the famous Van Waveren who originated the great daffodil, Van Waveren's Giant, will judge the tulips at the fourth Spring flower show, which is being held at the Willows on April 25 and 26, by the Vancouver Island Horticultural Association. Mr. Van Waveren is at present in the United States, where he is superintending the establishment of a branch bulb farm for his Holland firm; and through the efforts of Mr. L. Taylor, of West Saanich, he has been induced to come to Victoria to judge the tulip classes at the show.

With Mr. Van Waveren will come Mr. E. J. Van Zanten, another well-known Holland bulb expert, and he will judge the daffodil classes. It is doubtful if ever in Canada such expert judges of Spring flowering bulbs have been secured for any show. It is a great opportunity for those who are interested in bulb growing, either commercially or as a hobby, to meet two men who, in all probability, know more about the subject than any on the continent at the present time.

"Yes, lady, I lost my leg working in a mineral mine," said the tramp. "Ah," replied the old lady, "few of us realize the dangerous work necessary in order to provide us with our ginger beer and lemonade."

"For sale by auction, a capital mansion recently built in a style of peculiar elegance and convenience, with extensive offices of every description, excellent kitchen garden, with lofty walls, hot-houses, etc., seated upon a beautiful lawn, commanding prospects of uncommon extent, and richness of hill, dale, wood, water, etc."

As long ago as 1706, land-owners in and about London had found that Want Ads were the perfect medium for selling property. They had also found that "the more you tell, the quicker you sell." In the main these Want Ads of more than two hundred years ago were generous of wording. They told a lot and . . . for those days . . . they sold a lot!

Today you can sell anything . . . and everything . . . through the Want Ads. And it's true now . . . as two hundred years ago . . . that

The more you tell  
The quicker you sell.

## LEAGUE LIVES AND MOVES ON WORLD OPINION

Dr. A. O. MacRae Makes Appeal for Greater Support for League of Nations Work

### ACTIVITIES OF BODY REVIEWED

"We must look for a new dawn and a new day, or be prepared for the twilight and then the dark—the dark of devastation and destruction that ever stalks in the wake of man against man, nation against nation. We have our choice, the worship and acceptance of the god of things as they are, a drifting civilization of aimless activity, or a league and a federation of nations intelligently making its way."

Dr. A. O. MacRae, in addressing the Victoria Kiwanis Club yesterday.

Dr. MacRae said that the League of Nations had broken the trail, and had shown the way. "It is for you and me, for each and all, to follow up and follow on. This league lives and moves on world public opinion. It depends on co-operation. You can help or you can hinder."

You gave of your time and your money, on how lavishly, in the time of strife and war. Can you not give for the maintenance of peace? Must it be written over our day and generation that they knew sympathy and sacrifice only when death and destruction was abroad—only when wounded and dying crowded their battlefields and filled their hospitals, or will it be written, behold they found a more excellent way—they showed a more excellent spirit?

"Go to your sons and daughters, the younger generation, and teach them the things that make for peace. Show them that the pen is mightier than the sword, and that the victories of peace are more potent than those of war," Dr. MacRae exclaimed, amid applause.

**FUNERAL NOTICE**

Officers and members of Lodge 83, Daughters of St. George, are requested to meet at Harmony Hall, Fort Street, at 1:45 p.m. Thursday, to attend the funeral of our departed sister, Mrs. Annie Merton. Members of Princess Patricia Lodge invited.

**Coroner's Jury Says Death Was Accidental**

At the inquest held yesterday at Sands Funeral Parlors by Dr. E. C. Hart, provincial coroner, the jury returned a verdict pronouncing the death of Joseph Dominic Picanic to be accidental.

Picanic was killed when struck by an automobile on Esquimalt Road on Saturday night. He had come by boat from the north side of the la- goon, where he lived, and according to evidence given was walking slowly across the roadway when hit. The night was dark and rainy and he was not seen by the driver of the car until it was within six or seven yards of him. The car, it was testi- fied, had stopped within four yards after the brakes were applied. The victim was rather deaf, another witness stated.

**LEAGUE PREVENTS WARS**

The speaker asserted that the League of Nations was worth while, and had prevented war not only on one, but on seven or eight occasions. It had been the means of not only settling quarrels between nations, but also of the settlement of disputes which had gone so far as to make war almost inevitable. If the league had done nothing more than prevent strife between such coun- tries, it had justified its existence, and more than justified the expendi- tures made upon it.

The league, he said, had rehabili- tated hundreds of thousands of helpless people throughout Europe. In health work, it has saved more lives than were lost in the Great War. It had stopped typhus and halted smallpox, cholera and ty- phoid. It was studying cancer, malaria and tropical diseases.

Dr. MacRae pointed out that the league was busy with legal and constitutional questions, arbitration, reduction of armaments, finance, in- dustrial and economic problems in their international aspects, agricul- ture, shipping, transportation, health and social problems, and the pro- tection of minorities. "Anything and everything to promote peace en- gages the attention of the league."

**RECENT ACCOMPLISHMENTS**

Discussing the more recent ac- complishments of the league, the speaker cited the Act for Pacific Settlement of Disputes, by which ten nations agreed that no dispute between them should lead to war, but would be referred to the League of Nations. An optional clause, meaning that the Permanent Court of International Justice could settle legal disputes finally, was signed by thirty-three nations, among the signatories being such great powers as Great Britain and her Dominions, France, Germany, Italy and the United States.

"As between nations, there is a common meeting place. Geneva is now a cross section of world public opinion. To have even started a League of Nations, and the League of Nations recently, is to say that hu- manity has crossed one of the great watersheds of history," Dr. MacRae said.

Dr. MacRae observed that fifty- five nations now meet in Geneva, all recognizing the necessity for curbing the passion for nationalism. He considered warlike nationalism a sad commentary on 2,000 years of Christianity.

**OPENING FOR WOOL**

Woolen Mill on Mainland Proposes to Use British Columbia Materials

The West Coast Woolen Mills in Vancouver, which has just been organized for the purpose of taking over the woolen business of another company, which received assistance from the Department of Industries, is already starting in with the idea of utilizing British Columbia wool in connection with its manufacturing.

Word has been received at the markets division of the Department of Agriculture in the Parliament Buildings, that a shipment of wool has just been received from the interior of the province to be utilized in the manufacture of the goods. It is the intention of the West Coast Woolen Mills to put this wool through all the various processes necessary, looking to the bringing of it to a stage where it may be used in the carrying out of the manufacturing of the fabrics used in the mills.

The new concern will specialize upon tweeds with the addition of mackinaw cloth, flannel goods, and a number of other lines which find a market in this part of the province.

The Department of Industries is lending what assistance is possible to the company.

**PRAYER UNION**

The April meeting of the Prayer Union for the Salvation of Israel, will be held on Friday evening at 8 o'clock, in the Y.W.C.A., Blanshard Street. The speaker will be Mr. P. W. Veale, and the chairman, Mr. G. E. Davidson.

## MR. H. A. POWELL DIES IN EAST

Well-Known Lawyer and Public Man Had Relatives Resident Here

The announcement of the death in Saint John, N.B., of Mr. Henry A. Powell, K.C., yesterday, was re- ceived with regret by a large circle of acquaintances and friends in this city. There are many in this province who knew the late Mr. Powell, who filled a most important place in his native province of New Brun- swick in a professional way, and in a representative capacity in the Legislature of that province, and in the House of Commons at Ottawa.

Mr. Powell was a brother-in-law of Hon. P. P. Burden, Mrs. Powell and Mrs. Burden being sisters. In the profession of law he stood well to the front in the Dominion, and on occasion had been intrusted with the pleading of cases before the Privy Council in London. For a number of years he was a member of the Provincial Legislature, lead- ing the Conservative Opposition in that House for a time. Later he entered the House of Commons at Ottawa and sat for eight years there. He was also a member from 1911 until 1928 of the International Joint Commission between the Do- minion of Canada and the United States.

Mr. Powell was a university lec- turer in his chosen profession, and was also noted as a speaker on matters of an international char- acter. He was seventy-five years of age.

## The best paint bargain in the world

Fewer gallons needed. Costs no more than cheaper paint, on the house. Cuts repainting costs.

### Paint Now for Economy

If your house is even slightly weather-beaten, paint now with fine old SWP and save money.

Because of its wonderful "body" SWP House Paint thoroughly covers more square feet of wall surface per gallon. Therefore fewer gallons are needed. Even at a slightly higher price per gallon, it costs you no more than cheaper paint by the job.

The beautiful, weather-proof SWP colors and the tough film last so much longer that repainting is needed only once in about five years, on the average. Cheaper paint has to be replaced completely every year or so. That is why SWP saves 50 to 75% on repainting. It is the world's greatest house paint bargain.

Call upon your nearest S-W "Paint Headquarters" for suggestions as to smart new color schemes. Please note the Friday and Saturday Suggestions listed.

## BLIND MUSICIANS ENTERTAIN MANY

Mr. J. A. Johnson, Himself Sight-

Unfold Pleasure

The origin of the Blind Musicians' Orchestra was first conceived in the mind of the late Mr. J. A. Johnson, of Vancouver, who, being blind himself and fond of music as a source of entertainment, foresaw the possibility of enlivening the lives of many sightless men and women who were musically inclined, so forming a musical club.

This was done, largely due to his aggressiveness, the object being to assist in further development of music talent discovered amongst the blind with a view to bringing them together in a social way. His plans have been accomplished, and the members of this club have not only benefited by their progress in music, but also have derived a great pleasure in being able to go before the

## CROSS COUNTRY RUN IS ENJOYED

The Victoria Hunt Club met on the Willow green at 2:30 p.m. on Saturday last, the weather being ideal and one of the best runs of the season was enjoyed.

After a smart run to the Normal School area, the trail was lost, but later picked up on the far side of University School and followed to Mount Tolmie, where false trails required some minutes to prove, the right one was, however, found, which led through the Cedar Hill country to Mount Douglas Park, where the hares were run to cover.

The course covered some fifteen miles, and included several fence and water jumps. Those taking part in the hunt were: Mrs. Donald Gillespie, Mrs. Homer Dixon, Mrs. St. G. Lindsay, Mrs. Macallan, Misses Margaret Homer Dixon, Rowena Horsey, Mary Hunter, Elizabeth Garrett, Dora Kitchin, Nell Wyles, Nan Eve, Messrs. Jack Bessonet, Charles Bagshaw, J. Macallan, J. R. Scoby and Richard Garrett. Mr. and Mrs. Macallan later entertained the members to tea at the Beach Hotel. The club will meet next Saturday at the Willow at 2:45 o'clock, for an informal ride.

## PRESIDENT VISITS CANADIAN LEAGUE

Mrs. H. L. Ross, of Vancouver, grand president of the Canadian Daughters' League, paid her official visit to Far West Assembly No. 30 last week. The regular business meeting was preceded by a banquet at Carson's tea room. The tables were decorated with red tulips, daffodils and fern, carrying out the league colors. Corsage bouquets and bouquets of Spring flowers were presented as favors to the guests of honor and officers. Mrs. Ross, Mrs. Gardiner, of Nanaimo; Mrs. Haines and Mrs. Ritchie, grand conveners; Mr. B. MacLaurin, grand conveners; Mr. C. C. Pike, of the National Council of Native Sons, and Mr. C. G. Gowan, of the Sons of the Sea, were guests of honor. Mrs. R. A. Barr, president of the assembly, presided. Various toasts were proposed and short addresses were given. At the meeting which followed, Mrs. Ross spoke of the work and aims of the league, and complimented the members on their achievements. At the close of the meeting, Mr. Claude Harrison, president of the Alpine Club, gave a most interesting illustrated lecture on the Rockies and Leech River districts. A vote of thanks was expressed to Mrs. Ross and her party. Mrs. Ross addressed the members and guests and was presented with a book and a bouquet, the presentation being accompanied by a ceremony, in which Misses Hocking, Dickson, Dewar, Thompson, Haines and Noble took part. Miss Noble sang "The Perfect Day," accompanied at the piano by Miss Cottell. The committee in charge of the banquet included Messdames Clark, Fitzsimmons and Galbraith. Mrs. Lillie being in charge of the decorations. While in the city Mrs. Ross was the guest of Mrs. R. A. Barr. ## Health and Diet Advice

By DR. FRANK MCCOY

### SOME POTATO RECIPES

In preparing potatoes it is good to remember that most of the alkaline elements are close to the skin. Whenever possible potatoes should be cooked with the skin on. If the peel is to be removed, it should be as thin as possible, or just scraped. By cooking potatoes with the skins on they have a better flavor than if peeled. They can be thoroughly cooked by boiling in plain water for about a half hour. The potatoes can then be peeled and mashed. The middle of the potato contains practically nothing but starch and water with a very small amount of protein.

Baking is the best way of preparing a potato. In baking, unless the skin is oiled some of the outside skin will be burnt and many of the valuable minerals and vitamins will thereby be lost. Potatoes can be baked in from forty minutes to an hour. When removed from the oven they should be placed in a hot dish, covered with a napkin, and eaten as soon as possible.

Mashed potatoes are wholesome if skinned after being boiled, or if they are very thinly peeled before boiling. There is a tendency to swallow mashed potatoes too rapidly because they are soft, and they should therefore be well masticated. The same applies to sliced potatoes. Fried potatoes cannot be recommended for food as the fat or grease makes the starch very hard to digest. The least injurious way of frying them is to fry them as French fries. Cut into small pieces, dry in a clean towel, and drop into very hot oil, using preferably a vegetable oil such as olive oil, cottonseed, or corn oil. The greasy hot oil, so as to dehydrate the outside of the potato the instant it touches the hot fat, before the grease has time to work into the potato. Do not add too many pieces to the oil at one time or you will lower the temperature so that the outside of the potatoes will not be thoroughly dehydrated.

Omeared new potatoes may be prepared by rubbing the skin off rather than peeling the potatoes and they should be cooked in a small amount of water and real cream added but no flour sauce. Potato soup may be made by cooking potatoes until tender, mashing them in water and adding some milk or cream and finely chopped parsley or celery. Serve with thin strips of Meise toast and butter, but no onion or tomatoes.

Potato croquettes may be made by mixing one cup of hot mashed potatoes, one-eighth teaspoonful of celery salt, one-half teaspoonful of chopped parsley, one egg yolk, one tablespoon of cream, one-half teaspoonful of butter, and a small amount of salt. Mix thoroughly and shape into small balls. Let stand for a few minutes and drop into deep hot fat for three minutes.

Potatoes and spinach may be mashed together, butter and salt added, and formed into small cakes. These should be baked for a half-hour in the oven until nicely browned.

Scalloped potatoes may be made by peeling raw potatoes, slicing them and arranging in a baking dish. Fill the dish, add some butter, salt, hot milk, and Meise toast crumbs. Bake in the oven until the potatoes are tender. Potato puff may be made by baking the potatoes, cutting them into halves and scooping out the inside. Keep the shells and fill them with potato pulp mixed with milk, butter and salt. Brown in the oven.

## CITY SENDING OUT CURRENT TAX NOTICES

Over Twenty-Five Per Cent Of Statements Already Are in Hands of Rate-payers Here

## MAYOR'S POLICY BRINGS RESULTS

The city of Victoria claims to be the first municipality in British Columbia to have the tax notices in the hands of the ratepayers at such an early date this year.

Mr. Edwin C. Smith, city treasurer, said yesterday that the first tax bills were sent out by the staff of the treasury department on March 27, and that by now practically 25 per cent of the statements showing the current obligations of the ratepayers to the city had been mailed.

The balance of the tax notices will be sent out as soon as the statements can be prepared, he declared. It will be recalled that the city's budget for 1930 was completed, at the request of Mayor Herbert Anscomb, early in the year, in order that the tax bills could be given to the ratepayers well in advance of previous years. This policy has proved most beneficial, as the results have already shown. Outside of the usual prepayments of taxes, a glance at the files reveals that every day citizens who have received their tax notices have come to the City Hall and paid in full their financial obligations to the corporation for the current year. This year the treasury department has got out their tax notices at the earliest date of any year in the city's history, Treasurer Smith said.

## WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? That indicates a torpid liver.

Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit-forming. They are not a purgative that cramps or pains, unpleasant after-effect following—on the contrary a good tonic. All druggists 25c and 75c red pkgs.—(Adv.)

### Fashion Fancies

By Marie Belmont

Now is the time for every smart woman to decide upon her Spring coat. Of course her personal activities will be an important determining factor in whether this is to be a formal or sports model. However, for the general utility coat, the one that goes shopping, motors into the country, or worn for spectator sports wear, there can be no better choice than that cut from one of the new tweeds. Coats of this type are especially "right" for daytime wear when they are developed with a capelet collar, which may be cut either in one with the coat or detachable.

Shown here today is a model that evinces the latest sartorial thought upon coats of this type. The first important detail is seen in the choice of blue and gray mixed tweed as the fabric. The double breasted panel down the front accentuates the long slender lines. An interesting neckline is achieved by the manner in which a scarf is held by tabs buttoned down on the capelet which is cut in one with the yoke. Characteristic of this tailored type is the narrow belt placed at the normal waistline. One could make no fashion error in deciding upon a coat detailed in this manner.

Gena and other parts of California. Miss Helen Dean returned home to Ganges on Thursday.

Miss K. Frampton, of Galiano, paid a short visit to the Island during the week, when she was the guest of Mr. and Mrs. Frank Crofton, of Ganges.

Mr. J. L. Nicholls, of Ganges, who was accompanied by Master George Elliot, spent the week-end in Victoria visiting his parents.

Miss Clair Wilson, of Ganges, returned home on Saturday after visiting Victoria, a guest at the Glen-shiel Hotel.

Miss Mabel Harris, who has been visiting her parents in Victoria, returned to Ganges on Sunday.

Major A. Rowan, of Vancouver, arrived on the Island last Thursday, and is spending a week at his Ganges House. He is accompanied by two daughters.

### James Island

Mrs. Frank Barrie, who has been a patient at the Royal Jubilee Hospital, Victoria, has returned home.

Miss Ella Brown, of Los Angeles, has been the guest of Mr. and Mrs. C. W. Holland.

Mr. D. A. McLaughlin is on a business trip to Tacoma.

Miss Margaret Ferguson, of Victoria, spent the week-end the guest of Mr. and Mrs. W. Rivers.

Mr. and Mrs. Archie Clegg, of Victoria, were the week-end guests of Mr. and Mrs. James Clegg.

At the progressive bridge played at the Moore Club the prizes were won by Mrs. Melville Watson, Mr. and Mrs. Stuart McPhee and Mr. G. W. Richards.

Mr. P. B. Scott, of Vancouver, was the week-end guest of Mr. and Mrs. M. J. Kirk.

**Lake Cowichan**  
The friends of Mrs. Renee Miller will be pleased to hear that she is making satisfactory progress after her operation for appendicitis. She is a patient at the Duncan Hospital.

Miss Ethel Swanson, of Victoria, spent the week-end visiting her parents, Mr. and Mrs. Carl Swanson.

Mr. and Mrs. Russell and their two children have returned from a trip to the Canadian National Railways.

Mr. and Mrs. E. S. Lomas had as their guest over the week-end their niece, Miss Nora Dwyer, of Duncan.

Mr. A. T. Peatt, of Colwood, was a recent visitor to View Royal.

**THE IDEAL WIFE**  
"Why are you so pensive?" he asked.

"I'm not pensive," she replied. "But you haven't said a word for twenty minutes."

"Well, I didn't have anything to say."

"Don't you ever say anything when you have nothing to say?"

"No."

"Will you marry me?"

**SHE THOUGHT:**  
"We'd squeeze you in somehow—if it weren't for 'B.O.'!"

**Yet, to be polite,**  
**SHE SAID:**  
"We'd give you a lift if we weren't so crowded."

**Another invitation lost**  
...all because of "B.O."

(Body User)

PEOPLE all agreed he was a nice chap. But somehow they never had room for him. The car was already filled. The bridge table already arranged. A dance already promised.

Then one day he discovered his trouble. "B.O."—body odor. At once he adopted a simple precaution. Now he's welcome everywhere. He knows the easy way to keep perspiration odorless.

**A risk we all run**  
People won't tell us when we're guilty of "B.O." They merely avoid us. The offender is the last to realize his fault because we so quickly become used to an ever-present odor. But remember, pores give off a quart of odor-causing waste daily—even on cool days.

Why risk offending? Adopt this easy, pleasant way to be safe. Wash and bathe with Lifebuoy. Like millions of other particular men and women, you'll say it's the finest toilet soap in the world. Leaves you glowing with freshness and healthy vigor—gloriously satisfying clean. Lifebuoy's creamy, abundant, antiseptic lather cleanses and purifies pores—ends every trace of "B.O."

**Radiantly fresh complexion**  
"A wonderful complexion soap!" say thousands of delighted women. Lifebuoy's deep-cleansing lather gently frees clogged pores of impurities—makes dull skins bloom with healthy, radiant beauty. Its pleasant, extra-clean scent—that vanishes as you rinse—tells you Lifebuoy purifies.

**Lifebuoy HEALTH SOAP**  
stops body odor

**FREE—Try Lifebuoy Shaving Cream—It's NEW**  
This new cream contains Lifebuoy's famous health ingredient. Its double dense, antiseptic lather lubricates the skin—softens the tenderest face—gives you the quickest, easiest shave you ever had. We will send you free a full size 35c tube for a thorough trial. All you need to do is

POSTERS TELL  
CANADA'S STORYEMPIRE MARKETING BOARD  
ADVERTISES CANADIAN PROD-  
UCTS IN OLD COUNTRYFramed Posters Depicting Lumber-  
ing, Salmon Canning and To-  
bacco Growing Displayed

In connection with the intensive campaign recently instituted by the Empire Marketing Board to advertise and further the sale of Canadian products in the Old Country, The Colonist is in receipt of a number of miniature photographs depicting scenes familiar to most British Columbians. They were forwarded from the office of the secretary in London, with a covering letter, stating that the pictures were photographs of a set of posters which the board had on display in special poster frames throughout London and in nearly five hundred other cities in England, Scotland, Wales and Northern Ireland.

Publicity of this nature should be productive and of great benefit to Canadian industries, tending as it must to make the people of the Old Country familiar with the products of her waters, forests and fields. The framed posters show three scenes, with dividing panels, on which the salmon and honey production of Canada are featured, with the amount in pounds of each product. Canadian honey between 1920 and 1928 shows an increase from 6,500,000 to 221,000,000 pounds weight, while the people of Great Britain and Ireland are told that the average annual catch of Canadian salmon amounts to 200,000,000 pounds. One large poster shows a tobacco field, with the grower at work selecting plants to provide for next year's crop, while a third poster presents a picture of a salmon canning factory on the coast of British Columbia.

Mr. A. Ryan, who forwarded the illustrations, stated reproductions of these Empire Marketing Board posters are now printed and would shortly be issued with simply written explanatory leaflets to 22,000 schools on the board's standing list.

BORROW FASHIONS  
FROM HOTTENTOTSOrnaments of African Natives  
Adopted by Paris for  
Spring Costumes

(Special to The Colonist. Copyright, 1930.)  
TORONTO, April 14.—It isn't only the Prince of Wales who goes to Africa for big game. Madame Fashion herself trips thither occasionally, but only in spirit. From this wild and savage country she has brought back a most unique suggestion for the accessory of the Spring ensemble. Those gleaming masks from the hippopotamus which are strung on sinew and which are worn so proudly by the Kaffir gentlemen when they throw a hot Hottentot party, have been translated into Parisian terms. A wide necklace of blue, white and black bars so cut and attached to each other to resemble tusks, are what is recommended for certain costumes. They are striking, at any rate. Another necklace is a combination of cylindrical-shaped bars and balls in blue, brown and silver.

Black and white are still on the tapis and in a recent fashion display of a New York jewelry house only these colors are shown. Galleries is the name applied to that very ornate jewelry which is composed of brightly colored flowers embedded in clips, brooches, and necklets and earrings too. Glady blues, reds, greens and all the primary colors of the old school color chart are represented. They are striking, at any rate. Another necklace is a combination of cylindrical-shaped bars and balls in blue, brown and silver.

**JEWELRY FOR SPORT**  
Special attention is devoted to jewelry for sport. Perhaps this seems strange, as it has been the accepted idea that anyone engaging in sports should wear neither necklet or bracelet. This idea has gone to the happy hunting ground of passe opinions. Metal is used and it cut into divers shapes from diamonds to pentagons and octagons. It also displays a braided leather chain which takes the place of the metal chains, and in some cases mercerized cotton cord is used. It is very attractive and also very appropriate with tweeds.

Another new term to add to the fashion vocabulary is "rhondelle." This is just what it means when some one refers to light weight but somewhat elaborated necklaces and bracelets which are composed either of crystals strung on wire and then twisted, or bunches of tiny glass grapes and flowers which look like the little modernistic trees which sometimes grace the tables of the modern-minded.

**JAPAN PEARLS POPULAR**  
Pearls are still popular. The kind being shown are the Japanese variety over which there was recently a law suit in Paris. It seems that the Japanese can produce all the pearls they wish by simply inserting a stone in the shell of the oyster. Mr. Oyster then starts to work and tucks it up in a pearl covering of his own make and the Japanese thus turn out thousand of pearls annually. Paris objected, but the Japanese won out. The pearls are in pastel shades of all colors from rose, lemon, lettuce green to khaki, beige and sunburn, and even black and gunmetal. So expert have some jewelers become that these pearls can be bought and mixed can have them tinted to their heart's content. They are in demand here in the shop to match her costume. Japanese crystal is another type of jewelry which is favored. Much of the jewelry which was inspired by the house of Lelong is of a tailored nature. Brightly colored, glazed and lacquered squares, oblongs, chains are made in close formation to look like a severe, T-shaped collar. They are in red, green and blue, and not infrequently edged with gold. The very nuch in the mood of the grande dame is the treatment given to one of the jet ornaments. One of the most striking is a fine chain descending from which is an exquisite of ornate work in jet. There is no considerable of the rhondelle in lack and white and it is very chic.

## At The Playhouses

**COLUMBIA** In the new picture at the Columbia, Miss Page plays a society girl, the sweetheart of Novarro, who portrays a young naval aviator. Much of it is filmed in the air, with many airplane thrills presented by regular naval flyers at the San Diego naval base. George Hill, who directed "Tell It to the Marines" and "The Cosacks," directed the new picture.

**VARIETY** Drama, romance, action, laughter—this is the splendid fare the talented Toby Leitch Players are offering this week at the Variety Theatre in "Sundown on Honey-moon Ranch." Judging from the applause which greeted its production on Monday and Tuesday, this scintillating comedy-drama of Arizona life is bound to become one of the most popular plays Toby Leitch has

### AMUSEMENTS

**On the Stage**  
Variety—The Toby Leitch Players present "Sundown on Honey-moon Ranch."

**On the Screen**  
Capital—Richard Barthelmess in "Son of the Gods."  
Columbia—"The Flying Fleet," starring Ramon Novarro.  
Dominion—William Powell in "The Street of Chance."

**Playhouse**—"Married in Hollywood," featuring Norma Terris.

**Crystal Garden**—Swimming and Dancing.

brought to Victoria this season. Lorus Bagley gives a particularly fine interpretation of the character of Creed Brim and Kollon Parker is excellent as Jack Norton. The hilarious comedy in this sparkling play is supplied by the inimitable Toby Leitch in the role of a dashing, but extremely funny cowboy.

**ROYAL** The Gordon McLeod Theatre English Players are resting this week and will open next Monday with a comedy entitled "The Man From Toronto." This is a charming play and ran for a year in London. The whole cast of the players will appear, except Mr. McLeod, who is producing the play, the stage setting of which will be particularly effective.

**PLAYHOUSE** J. Harold Murray, Theatre, who starred in "Rio Rita" in New York for two and a half years, and Norma Terris, leading woman of the musical comedy, "Show Boat," on Broadway, sing the principal roles in "Married in Hollywood," Fox Movietone all talking, all singing Viennese love song romance, now showing at the Playhouse Theatre, under Marcel Silver's direction. A chorus of 160 voices and sixty dances compose the ensemble.

**CAPITOL** The celebrated gam-bling halls of Monte Carlo have been reproduced with fidelity for "Son of the Gods," the first National and Vito-phone production starring Richard Barthelmess, now running at the Capitol Theatre all this week. The Monte Carlo scenes of "Son of the Gods" are also interesting because

they introduce Constance Bennett, who plays the feminine lead opposite Barthelmess. It is here that Miss Bennett, as Alanna, meets Barthelmess in the role of Sam Lee, an American boy raised in the belief that he is a Chinaman.

**DOMINION** Kay Francis, American actress, best dressed woman, whose work in "Gentlemen of the Press," "The Cocoanuts," "Dangerous Curves" and "The Marriage Playground," has brought her considerable renown on the all-talking screen, will be seen and heard in a part that is less villainous than her earlier ones in "Street of Chance" at the Dominion Theatre for the last times today.

### TURKISH BATHS ARE INAUGURATED

Expert Swedish Massage in Charge of Men's Hydro at Crystal Garden

In announcing the opening of the new Turkish bath section for men and women, Mr. A. H. Cowlishaw, Garden manager, advises that he has placed the men's hydro department in the hands of Harry Lowenberg, a fully qualified Swedish masseur. Mr. Lowenberg was for two years on the staff of a Swedish hospital, and was for one year at the famous Urickhamns Sanatorium in Sweden. Since coming to Canada, Mr. Lowenberg has been at Harrison Hot Springs, where treatment under his supervision proved entirely satisfactory in cases of rheumatism, sciatica, lumbago, etc. The hydro department at the Crystal Garden is equipped to give treatments suitable for every individual requirement, such as steam and electric baths, hot and cold salt water baths, massage.

**A SPECIAL CASE**  
The Chief Constable of a small town was also an expert veterinary surgeon. One night the telephone bell rang. The Chief Constable's wife answered it.

"Is Mr. Blang there?" said an agitated voice.

"Do you want my husband in his capacity of veterinary surgeon, or Chief Constable?" inquired the good lady rather pompously.

"Both, madam," came the reply. "We can't get our new bull into an open his mouth, and—there's a burglar in it."

A bank clerk has gone on the stage as an equilibrist. He will now be more concerned with his own balance than with other people's.

### DIAL SYSTEM INSTALLATION PROGRESSING

Demonstration Machine Has Arrived—Shows in Miniature How New System Operates

### ALTERATIONS AT PRESENT EXCHANGE

In order to accelerate the electrical work at the B.C. Telephone Company's new dial exchange at Johnson Street, adjoining the Blanshard Street exchange, two shifts are to be put on, commencing today.

An inspection of the undertaking shows that substantial progress is being made both in the rack room and in the cable splicing operations below street level. It appears probable that the dial telephone system will be inaugurated here before the end of the year.

The demonstration set, specially manufactured for that purpose, which is to be used for education of the staff, and for public demonstrations to inform the general body of subscribers, has already arrived, and though in miniature, it is easy after testing the dials to see how the system differs from the manual one now in use.

There are at the present time 15,000 subscribers on more than nine thousand lines in the Victoria office. As the new system will be individual, there will be no more fear of neighbors overhearing one another on party lines, the plan to be adopted being to take units of 100 on each 10,000 maximum subscribers, with immediate use of about 80 per cent, thus leaving one-fifth open for expansion. On the four-figure basis for the subscriber, the maximum number will thus be 9,999 plus the exchange name.

The subscriber, on leaving premises within the exchange area, carries his number with him and retains it so long as he continues to subscribe to the same class of telephone. It is obvious that a system designed to cater to 10,000 subscribers in the area must look to expansion, and the building as now designed can accommodate equipment up to double that at present being installed, or a maximum of 40,000 subscribers on four exchange groups.

For further building requirements the company has acquired a lot on Johnson Street, capable of housing

a vast expansion of business should the necessity ever arise.

### THE PRESENT EXCHANGE

Simultaneously with the work in the new exchange building, which will go on all Summer, alterations are being made for accommodation of the public when the commercial staff is removed from the Temple Building to the exchange, where it formerly occupied offices. The porch, which stood in the centre of the building has been removed to the south, practically in the centre of the property owned by the company on the Blanshard Street frontage. It will give access by a flight of steps, which will connect to each floor and which is already in an advanced state of construction.

Where the porch formerly stood has been blocked up and windows conforming to the remainder of the frontage have been constructed. The basement accommodation in the older part has been extended in line to the sidewalk.

### SCHOOLS CLOSE TOMORROW FOR EASTER RECESS

Over 6,000 Victoria Children Will Lay Aside Books Until Monday, April 28

### COLLEGE TERM ENDS SHORTLY

Over 6,000 Victoria school children will lay aside their lessons and books tomorrow afternoon and enter upon their annual ten days' Easter holidays. The Victoria High School and the various graded schools of the city will close at that time until Monday, April 28.

The regular Easter examinations at the Victoria High School have been held, the tests having been completed on Friday last. Students at Victoria College are in the midst of their examinations, although they will enjoy holidays on Good Friday and Easter Monday. The college will probably close for the term on Thursday, May 1, and it is expected that the results of the tests will be known by May 7 or 8.

There are 250 students attending Victoria College at present, this figure, of course, being exclusive of the special night classes for teachers being conducted at the institution.

"What have you given your husband as a birthday present?"

"A hundred cigars."

"It was very expensive, wasn't it?"

"Oh no! In the last two months I have taken two from his box every day. Imagine, my dear, on his birthday, how glad he was because I had chosen his favorite cigar!"

### The Story Behind the Play

By J. J. GELLER

**"AIDA"**  
A popular misconception links first presentation of "Aida" with the formal opening of the Suez Canal. This notion persists due to the fact that the Suez Canal was opened in 1871, the same year that "Aida's" premiere took place in Cairo.

The truth of the matter is that the Khedive who ruled Egypt at that period was a man of artistic inclinations who lavishly poured out his money for any project that might elevate the cultural ambitions of his subjects. In 1869, he caused to be erected in Cairo from his own funds a magnificent theatre modelled after the Italian architecture. Upon its completion, he was at a loss for an attraction sufficiently worthy to inaugurate the theatre.

One of his advisers suggested that he engage Verdi, conceded to be the peer of any operatic composer, to write a new opera expressly for the opening of the imposing structure. It was planned that the new work be of a national or patriotic color. To this the ruler agreed, and communicated with the Italian composer, asking him to name his own terms. When the modest Verdi received this request he sought the counsel of his friend and music pupil. The latter, displaying more business acumen than Verdi, immediately suggested a sum equivalent to \$20,000, with the stipulation that Verdi be first of all informed of the subject which they selected for operatic treatment.

The famous French Egyptologist had in the meantime outlined a mere sketch of "Aida" and this was promptly sent to Verdi. It was a tale of true love frustrated by destiny, in the days of the Pharaohs when Egypt warred with Ethiopia. The composer was carried away by the idealistic scope and the opportunity for creating dramatic tableaux—and agreed to write the music.

Before he could proceed, Verdi turned handed the plot to a distinguished French librettist who furnished the book, which was thereupon translated into Italian. When the finished text was ready for the music, Verdi made some highly significant changes which were generally acknowledged by his collaborators. In four months the score was completed. The Egyptian tendered Verdi all sorts of favorable inducements to journey to Cairo to direct and rehearse the opera for the opening week, but he refused; he had a mortal terror of making a sea voyage.

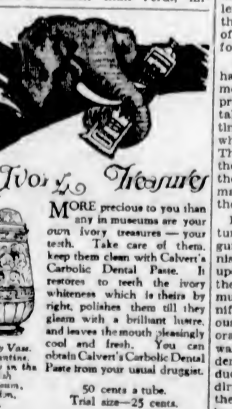

Plans were started to produce the opera and the scenery and costumes were prepared in Paris. The Franco-Prussian War broke out, the city was besieged and this caused a delay in presenting the new opera. Finally, on June 24, 1871, "Aida" was introduced before a representative audience. Notables from almost every country attended the premiere. Crowds were turned away from the door. This production was one of the most gorgeous which graced any city. The applause which greeted the singing was deafening and could be heard beyond the walls of the theatre.

"Aida" is one of the few operas that has never yet failed to receive a triumphant reception.

## BANISHED stale coffee .. weak coffee

This freshly roasted coffee speeds to your grocer at the peak of its flavor ... full strength ... in the new vacuum tin.

WHEN your coffee tastes flat, or weak, very likely it's because it's stale. For the aromatic oils which make the taste of freshly roasted coffee so delicious are volatile. Their fragrant flavor gradually steals away.

Chase & Sanborn's Coffee is handled exactly like a fresh food. It is the only coffee that takes this extreme precaution to protect its strength and flavor.

Such care goes into the selection of beans for this coffee grown only on the high, sunny plateaus where they develop the finest "bouquet"—such care and skill go into the blending and the roasting—such delicious flavor results, as it comes crisp and fragrant from the roaster—that we thought it merited a "fresh food" type of delivery to

get it to you at the peak of its aromatic goodness.

So now Chase & Sanborn's Coffee goes to your grocer twice every week straight from the roasting ovens—in the same new green, motor trucks of "Standard Brands Limited Daily Delivery" which bring him Fleischmann's Yeast fresh all the time. He doesn't store Chase & Sanborn's Coffee; he receives just enough at a time to last until the next delivery.

The tins are "vacuum packed" ... sealed against deterioration! No other coffee offers you this double assurance of being always fresh.

Chase & Sanborn's Coffee is as fresh as fresh bread—as fresh as the cream you put in it—because the same sort of "quick delivery" is used to bring it to you while it is at its most glorious peak of full, rich flavor.

### To Make Good Coffee

We recommend the use of a percolator or triolator. If you use the ordinary pot, however, make it this way: Use a heaping tablespoon of Seal Brand Coffee to the cup. Put in the pot ... add cold water. Let it steep awhile, even overnight ... when ready, put on the fire. When it starts to boil, remove ... let stand a few minutes—serve.

### Scout News and Notices

District News—The Old Wolves' Council will meet tonight (Wednesday) at 7:30 o'clock. As important business will come up, a full attendance is requested.

Oaklands Pack—In place of the regular pack meeting, the pack turned out in full strength to take part in the opening of the new Scout headquarters. Before starting out the following recruits took their promise and were enrolled: Charlie Ball, Spencer Aspinwall and Leslie Myles. Second John Davey has been successful in passing his tests for opening his second eye and received his second star.

Victoria West Troop—At the last meeting, Victoria West Troop said adieu to Bob Trowsdale, who is leaving for the West Coast to enter the Government Lighthouse service. Bob has been with the troop ever since he started as a Wolf Cub, and, as there is no troop anywhere his new location, he will still remain on the strength, although his future visits may be few and far between. "Bill" Mainwaring will also be away for a few months, as he has gone to Chicago to take a specialist course in radio and wireless. Bill, too, is one of the original pack, and only two Scouts in the troop have a longer record of service.

St. Paul's Pack—Much progress has been made in the ball throwing, leap frog and stepping stone competition. Cub instructors Neil Fraser and Walter Phillips took the Cubs in a message relay. The Brown Wolves came in first. Later an observation game was played. The Cubs are reminded that the next meeting

will be on April 23, and not on April 16. St. Mary's North—There will not be a pack meeting this week and on Thursday, April 24, it will be held at the new Troop and Pack headquarters on Granite Street. Tenderpad Terrence Hockley passed his leap frog test, Tenderpad Douglas Alden his time-testing, and Tenderpad John Archibald his knot-tying. Although the Cubs are all glad to move into their new headquarters, they remember the many happy times they have had at Chaucer Street and honored the old place with an especially hearty "grand howl" before leaving on Thursday.

## DAVIES AND JACKSON TO APPEAR HERE

Well Known Vancouver Cyclists Will Compete In Annual Good Friday Race

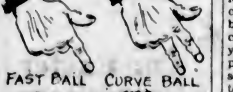

### LOCAL TALENT IS FORMIDABLE

When the shot is fired that will send the riders on their way in the annual Good Friday ten-mile bicycle race at Beacon Hill Park at 11 o'clock, included among the competitors will be Jim Davies and Stan Jackson, of Vancouver, two of the best and speediest cyclists in the province. Their entries were made known yesterday by G. D. Robinson, secretary of the Victoria Cycling Club.

Davies, Vancouver's flash, is the most feared opponent for the locals, as he is considered at the present time the fastest piece of humanity on two wheels in the province. If the Vancouver rider captures the Penny trophy this year it will be

The Woman With a Mane—This woman is professionally known as "The Woman With a Mane." She appeared in the Toronto Fair in 1917, has been in Samuel Gumples concession at Coney Island, Brooklyn, N.Y., and with Johnny Jones' Carnival Company, as well as numerous vaudeville performances.

EXPLANATION FOR SUNDAY'S RIPLEY CARTOON  
An Ice Boat Can Sail Faster Than the Wind That Blows It—The ratio of an iceboat's velocity to the velocity of the wind propelling it, depends upon the windward angle of the boat's direction. The direction of the boat and the direction of the wind never coincide. The closest a boat will go to the wind is 30 degrees or 2 1/2 points. At 180 degrees (10-2-2 points) from the wind the boat will attain its greatest speed. The velocity of the boat then is twice the velocity of the wind that blows it.

### SEATTLE BOY TO WORK OUT FRIDAY

Johnny Hawkes Due to Appear Here Day Before Last Mix With Albie Davies

Biddy Bishop, Seattle boxing man and manager, takes plain and straight from the shoulders. He declares that Johnny Hawkes will not only defeat Albie Davies when they box for the Northwest junior lightweight championship in this city Saturday night, but he says that Hawkes is very likely to knock Albie out. Listen to Bishop:

"Johnny Hawkes is not only a boxer, but a hitter as well. He has scored knockouts in his last seven starts and it would not surprise me in the least if he scored one on Davies when they meet at Victoria."

Bishop was discussing Hawkes with a Seattle newspaper writer when he spoke as quoted above. And by the way, Bishop was talking at Seattle about a match there that is in the making for Hawkes with Phil LaBarba. This match will be presented early this coming Summer, Bishop says.

"I consider Albie Davies a very fine little man, a great boxer," continued Bishop. "I look to see him go quite a distance in the boxing game, but you must consider that Davies is a featherweight, while Hawkes is a junior lightweight. Hawkes will not scale such a lot more than Davies, however. Johnny will weigh in at about 128 or 129. Davies will probably scale the full featherweight limit, 126 pounds, but I think he will be given to a good boy. You must stop and reflect, also, that Johnny Hawkes has a deft decision over Phil LaBarba. He has also a win over Wildcat Carter. Any boxer who can beat these two must have something."

"The boxing sport is rather a strange business. One can never tell just what will happen in the ring once two boxers square off in a contest. Upsets are frequent. We have then every few days and I have seen hundreds of them. Albie Davies may knock Hawkes out, but I'm quite sure that he will not. In fact, if it were permissible, I'd wager the price of a big red apple that it will be Hawkes on the scoring end if there is a knockout recorded. You can go to sleep on that."

Bishop has sent the word that he will have Hawkes here Friday to work out in public Friday evening. This will give Victoria boxing patrons a chance to look the Northwest junior lightweight champion over.

Another third round upset was marked up in the defeat of Fritz Mercier, of Bethlehem, Pa., sixth in national ranking, by Cliff Sutter, of New Orleans, 6-3, 6-4.

Johnny Doe, of Santa Monica, Cal., defeated Donald Gram, of Nashville, Tenn., in two fast sets, 6-4, 6-4.

John Van Ryn, of Orange, N.J., who ranks fifth, won over H. H. Coggeshall, of Toronto, Canadian Davis Cup candidate, 6-2, 6-4.

### Fifteen Local Golfers to Play In B.C. Amateur

FOUR more local entries to the British Columbia amateur golf tournament, which starts at the Vancouver Golf and Country Club, Friday, were made yesterday, which brought the local list to fifteen. Art Beasley, star Oak Bay southpaw, will make the trip, along with Alex Watson, former city champion; Allan Taylor, Oak Bay, and Sandy Marling, Colwood. Those previously entered include Bob Morrison, Harold Lineham, Jack Savident, Bert Challoner, Dave Randall, A. V. Price, "Scotty" McKendle, Dr. C. N. Westwood, Fred Dillabough, K. C. Allen and Vic Gravin.

### KAYE DON TO TRY AGAIN THIS YEAR

British Racing Driver Will Bring Silver Bullet Back to Daytona Beach in December

### CHANGES WILL BE MADE TO MOTORS

NEW YORK, April 15.—Kaye Don's first attempt to smash the world's automobile speed mark on the sands of Daytona Beach is over, but the dapper little Englishman with the brittle blonde mustache will be back again for another go at it this year.

It has been anything but a pleasant expedition for the debonair king of Britain's amateur tracks, who set forth like a schoolboy on a holiday two months ago to crack Sir Henry Seagrave's mark of 221 miles an hour in the massive Silver Bullet built especially for him by the Sunbeam Motors of England. Twenty-two times Don battled a set of coughing motors and the unusually rough Daytona sands without coming closer to the record than a mediocre 188 miles an hour.

The latest of the speed attempts that have already cost two crack American pilots their lives, ended officially yesterday with the American Automobile Association's withdrawal of sanction for further tests due to unfavorable weather conditions at Daytona Beach. Don already had abandoned the venture and was in New York, preparing to sail for England Wednesday. His giant silver mount, somewhat in disgrace for failure to develop more speed, was being crated in Florida for shipment abroad.

### DENY FRICTION

Both Don and Louis Costello, designer and general manager of Sunbeam, denied there had been any friction between driver and designer, despite persistent reports that Don was not satisfied with the car nor Costello with the pilot.

Costello's secretary said that he was in Buffalo, N.Y., but that he subscribed to anything Don might say. The slender Englishman appeared perturbed only at reports from Chattanooga, Tenn., that Cannonball Baker, American driver, would confer with Costello and others in regard to driving the Silver Bullet in another record test. Don said that he had paid \$50,000 for driving rights of the car, valued at \$150,000, for three years, and that no one could even at it, let alone drive it, without his approval.

"The best answer," Don said, "to hints that I am taking it back to Buffalo, N.Y., but that he will try again for the record in the same car next December."

"We probably will make some small changes in the motor."

### Babe Ruth Aims At Fifty Mark This Season

NEW YORK, April 15.—If Babe Ruth hits less than fifty home runs this season he will be tempted not to count them. Just before he left for Philadelphia for the opening game against the Athletics, the Yankee slugger said his minimum goal was an even fifty round-trip shots. "Maybe more if they pitch to me," he added.

### PAR COMPETITION POSTPONED A WEEK

The regular monthly par competition of the Victoria Golf Club, which was to have been played Friday, has been postponed until April 29.

### Annual Dinner of Oak Bay Members Billed, April 25

THE third annual dinner of the Victoria Golf Club will take place at the clubhouse on Friday, April 25, at 7:30 o'clock. Members desirous of attending the function are requested to make their reservations with Captain J. V. Perks, secretary of the club, or sign now his equal, the notice board at the clubhouse as soon as possible.

### Ethel Catherwood Starts Training

TORONTO, Ont., April 15.—Ethel Catherwood, the "Saskatoon Lily" and the Olympic women's champion high jumper, has started training here in preparation for the athletic program to be held in connection with the Shriners' convention in June.

Ethel Catherwood will represent the Parkdale Canoe Club. This will be her second appearance in competition since she won the Olympic championship.

## ATHLETICS DEFEAT YANKEES 6-2; CUBS NOSE OUT CARDINALS

Al Simmons Hits Homer in First Trip to Plate as Mackmen Trounce Rival New York Squad—Chicago Sluggers Pound Out Fifteen Hits in Trimming St. Louis, 9-8

### All Games in National League Decided by Single Counters

NEW YORK, April 15.—Although cold and threatening weather held down the attendance in a few places, nearly 200,000 fans turned out today to see the opening games of the 1930 baseball season. New York's National League opener drew the largest crowd, estimated at 40,000. The struggle between the Athletics and New York Yankees at Philadelphia drew 33,000 fans. With Boston and St. Louis suffering from bad weather, and the Chicago game postponed, the total attendance for seven games was estimated at 197,500.

The crowd estimates follow: National League—At New York, 40,000; at Brooklyn, 27,000; at Cincinnati, 30,000; at St. Louis, 12,000; total, 109,000. American League—At Philadelphia, 32,000; at Detroit, 27,000; at Boston, 8,500; total, 67,500.

By WALTER TRUMBULL (Copyright, 1930, by the North American Newspaper Alliance.)

SHIBE PARK, PHILADELPHIA, April 15.—The Athletics still lead the American League.

Overcast skies and a cold north-west wind kept some fans away from the opening game, while the Mackmen won from the Yankees, by a score of 6 to 2, here today, and the absence now are sorry that they stayed at home, pneumonia or no pneumonia.

Here was a contest as colorful as flowers in June and drenched with drama as thick as molasses in December. The stars did their stuff and there was surprise, suspense and wild excitement which helped to keep the spectators warm, as the tide of the fiercely-fought battle ebbed and flowed. There was good pitching and wild pitching, hard hitting and strike-outs and brilliant fielding and costly errors, as well as quick thinking and bonehead plays. Thrills followed each other until they became commonplace.

SIMMONS STOPS BROWNS  
The first excitement came before the game, when Al Simmons, the supposedly banished holdout, reappeared from Elba, to almost as great an ovation as the little corporal received. Al showed his appreciation after the game began by clouting the second ball pitcher, pitched him over the right field fence for a home run, scoring Mule Haas, who had walked, ahead of him.

It was a quarter past one, with the stands rapidly filling and the Athletics at batting practice, when the door of Connie Mack's private office opened and out walked Simmons, wearing a gray suit and a happy smile.

"Have you signed?" some of us asked him.

"Yes," said Simmons. "I am going to get into my uniform now and then I'll get into the game."

A few moments later, Simmons walked out on the field. The first fans to see him cheered with a loud yell of sheer joy, for it had been announced yesterday that Al was a holdout and would not play. Then the cheering died down and the cry and swelled it to a roar of welcome which lasted several minutes.

So Connie Mack, for the second time provided drama, although in this instance it was not planned, as it was when Howard Kohnke so unexpectedly walked to the mound in the first game of the last world series.

Mack naturally was pleased to start the season with his team intact, but refused to state what the basis of settlement had been. It is supposed that Simmons signed for a sum around \$20,000—somewhat less than he asked for, but more than he received last year.

Spencer Harris, who was scheduled to take the place of Simmons in left field, cheered only faintly. On Al's appearance Spencer was left in the position of an understudy just about to get a break, only to have the leading man arrive as the curtain is about to rise. Harris was so annoyed that he promptly smacked a baseball over the fence and through the windows of a house on Twentieth Street.

After the dramatic entrance of Simmons, even Babe Ruth, the Frankford Bull, and the champions of the American Legion, and Mayor Mackey were anti-climax, although the mayor showed the effects of his Florida training in the manner in which he hurled the first ball.

Connie Mack had his picture taken with his former employee, and the Athletics gathered at the plate while Mickey Cochrane was presented with an elephant, the latter, fortunately, being desk-set size.

Grove and Pipgras warmed up. Umpire McGowan dressed himself in mask and protector and the game

out, the season opened, the long race under way.

GROVE IN GREAT FORM  
The dark afternoon was made for fast ball pitchers and Grove took full advantage of it. Except for the two runs they made in the third inning, one of which was a gift, the New York players could do nothing with the great left-hander. He held them to six hits and struck out eight of them.

It was rather tough luck for Cooke and Chapman, the Yanks' youngsters, that they had to make their big league debut against a speed merchant such as Grove on a cold, gloomy afternoon. Neither of them hit safely, although Cooke did get to first on a pass his first time at bat. He fanned twice and Chapman struck out once. In the field they did their job well. It is too soon to judge their real abilities.

There seems to be nothing wrong with Simmons' ankle and Ruth's leg appears to be all right, but the Babe got a couple of tough breaks at bat. In the third inning he hit a ball that landed on the roof of the scoreboard and bounced back into the playing field. Under ground rules this went for a double. Had it bounced the other way it would have been a home run.

In the eighth inning Miller went over to the screen which guards the stands in right field and caught a long foul from Ruth's bat. The Babe showed his usual energy and should be in for a good season.

Behind the pitching of Grove the Athletics today looked a better team than the Yankees. They are a good team behind any pitching, and their chances for another flag appear to be bright.

### GOLF AS CHAMPIONS PLAY IT

DISCARD ALL CLUBS IN WHICH YOU LACK CONFIDENCE

Has the oversupply of clubs anything to do with the average player's poor game?

Answered by WILLIE OGG

An oversupply of clubs will influence the player's game to a certain extent, although I do not find many golfers really over-burdened with clubs.

However, no player should carry clubs in which he has no confidence, as there is always a temptation to try them out occasionally, which leads to disastrous results. The average player can hardly discard the clubs in which he has no faith, with a consequent improvement of his game. My advice is to stick to your "pet" clubs and work out on the practice ground with the others until they, too, become favorites.

## ASSESSOR IS REQUIRED AT PORT ALBERNI

Mr. Fairweather, of This City, Recommended to Make Reassessment of West Coast Port

## WATER QUESTION IS CONSIDERED

PORT ALBERNI, April 15.—At the meeting of the City Council last evening it was decided to engage James Fairweather, of Victoria, to make a reassessment of the whole of Port Alberni. City Clerk Bradley stated that Mr. Fairweather had been recommended by both Victoria and Saanich officials. A discussion arose over his fees, as some of the aldermen were not quite clear as to what expenses were included in "traveling expenses," as the city clerk stated that the fees for this class of work were fifteen dollars a day and traveling expenses. The matter was left over until Mr. Fairweather was communicated with.

**WATER QUESTION**  
Alderman Hamilton gave a report on the water situation, which was followed by a lengthy discussion on the new pipeline which had been installed by the Alberni Pacific Lumber Co. Alderman Turner stated that when the matter had been brought before last year's council he was of the opinion that the lumber company was not given a right-of-way to lay the pipeline, but now for the first time he knew that the company owned the line. It was laid over city property at a cost of \$9,000 to the mill, and at that time the council was informed that it was for fire protection of the mill property. Now the water was being used for industrial purposes. There was no doubt but what the company was saving a great deal of money on fire insurance, which caused Alderman Jones to state that the city itself had contributed \$1,000 toward the construction of the line, and was of the opinion that legal advice should be taken on the matter.

It was decided to instruct the meter in order to check up to ascertain what water the company was using. The manager of the mill wanted the meter on the mill property, but some of the aldermen thought that it should be at the beginning of the pipeline. Alderman Stone cast a doubt on the discussion in reference to the legal procedure in granting the easement to the company.

**FIRE MENACE**  
Alderman Fleming brought to the notice of the council the disgraceful state of certain lots in the central part of town, and which were covered by out-of-town residents. These, in account of the brush growing on them and the dry grass and weeds

## Studies Razor Clam Industry At Long Beach

LONG BEACH, April 15.—Mr. P. S. Gillford, of Westport, Wash., was a recent visitor at Long Beach, investigating the possibilities of the razor clam industry on the beach.

There was a fire menace and should be cleaned up. There should be a by-law covering such matter. On motion of Alderman Fleming it was decided that after April 28 the council would meet every two weeks instead of each Monday, as is now the procedure.

## Fishing Good In Cowichan River Near Lake

LAKE COWICHAN, April 15.—Fishing has been excellent for the past week in the river, and some splendid catches of delicious trout have been made. The best of the anglers among the huckster being Mr. Crowe, Mr. Ward and Mr. Whittaker.

## MR. SPOONER HONORED

Is Guest at Surprise Party, Which Is Spent in Music and Dancing

KEATING, April 15.—Mr. F. Spooner was the guest of honor at a surprise party, which took place at his home, East Saanich Road, on Saturday evening. The evening was enjoyed by music and dancing, with the following contributing songs in a pleasing manner: Messrs. Humphries, F. Partin, and F. Spooner. Supper was served later in the evening, and the guests included Messdames Whitely, Young, Wood, Chatton, Glidden, Ship, McKay, Steele, Partin, Randall, Carris and Spooner; Messes B. Bigelow, M. Evans, D. Chatton, V. Chatton, M. North, D. Wood, Michell, L. Spooner; Messes B. Bigelow, H. Lamont, W. Wood, B. Thompson, Redding, O. Hafer, C. Connerton, A. Hafer and Spooner.

## FOREMAN HURT WHEN THROWN FROM ROAD TRUCK

SAITLHAM, April 15.—Mr. Joseph Jordan, of Saitlham, foreman of Cowichan Lake Road, met with an accident last Friday morning. He was riding on the back of the municipal truck which hit a bump, causing it to lurch and throw Mr. Jordan to the road. His right leg was broken in two places, above the ankle and below the knee. His left wrist was also fractured. Mr. Jordan is in King's Daughters' Hospital, Duncan, at present, and is expected to be laid up for some time.

## Woman Dies Suddenly at Island Home

CAMPBELL RIVER, April 15.—While Rev. A. Green, of the Columbia Coast Mission Boat Rendezvous, was making his usual visit to the islands adjacent to Cortes Island and he called on Mrs. Shaw, who had recently bought an island near Cortes. Not receiving an answer to his knock, he went in, and found her dead in bed. She had probably died Thursday night, after turning out her light, putting her book down, and had peacefully passed away in her sleep. The mail left on her door step on Friday had not been touched. She was the daughter of a pioneer family. She leaves several relatives, among them Mrs. H. Pidcock, Eustace Smith, of Campbell River, and Cecil Smith, of Comox.

## GALLANT RESCUE IN HORSESHOE BAY

CHEMUNUS, April 15.—Nothing save the prompt action and heroism of A. Quayle averted a disaster on Sunday morning, when at about 12 a.m. two employees of the Victoria Lumber & Manufacturing Company, Tom Atkinson and Max Scherterbeck, were out in a canoe, a short distance from the lumber company's loading wharf.

In some manner the canoe overturned, the two were struggling in the icy water. Scherterbeck, who could swim, struck out for the shore. Alec Quayle, an employee of the Victoria Lumber & Manufacturing Company, saw Atkinson's plight from the wharf, where he was, and rapidly diverting himself of his clothing as he ran along the wharf, dove a height of thirty or forty feet into the water and succeeded in grabbing Atkinson just as he was going down for the third time.

Supporting Atkinson, Quayle swam to the overturned canoe and was bringing both to shore, when a rowboat put out from the Government wharf and took Quayle and his burden on board. Had it not been for the courage of Quayle and his instant help, Atkinson would have undoubtedly been drowned.

Mr. Quayle is an old resident of Ladysmith.

## CAR OVERTURNS. PASSENGER HURT

DUNCAN, April 15.—Mr. Leslie Gore, of Hillcrest, met with an accident while on his way to work last Saturday night. While attempting to pass another car, about three miles west of Duncan, he was crowded, causing the rear bumper of Mr. Gore's car to lock with the front bumper of the car he was passing. Mr. Gore's car turned over. There were four other passengers in Mr. Gore's car, but only one, Mr. Bruce, was seriously hurt. He sustained a bad gash in his head, which necessitated twenty-seven stitches. He was in King's Daughters' Hospital, Duncan, for a couple of days, but is now convalescing at home.

## COMMUNITY HALL NOW IN PROGRESS

Residents of Lake Cowichan District Work Hard Towards New Objective

LAKE COWICHAN, April 15.—Owing to the indomitable courage and enduring optimism of Mr. H. E. Gridley, a community club has been started and incorporated under the Societies Act, and its first meeting since incorporation was held last week, when Mr. W. F. Grossleg was elected president; Mr. F. J. Reed, first vice-president; Mr. H. Potentier, secretary, and Mr. Norman Thomas was finally persuaded to act as treasurer. Messrs. J. Morley, S. L. Scholey, A. Castley, M. L. Douglas were chosen as governors. Two lots between Mr. Carr's residence and the Swann Cafe were chosen as a community hall site. Mr. Gridley was asked to complete purchase of the property. The members undertook to do their share of clearing the lots, and on Thursday night a party and a dance was held in the Swann Pavilion by the executive, headed by Messrs. F. Reed and H. Mountain as M.C.s, while Mr. P. McPherson attended as doorkeeper. Six tables of court whist were played. Those winning prizes were: Miss Norah Dwyer (Duncan), first; ladies' consolation, Miss Dorothy Bailey (Duncan), second; men's first, Mr. Gordon McGinnis, consolation. At 10 o'clock dancing, to the strains of a Victoria three-piece orchestra, commenced, and people arrived from Duncan, Westholme, Crofton, Camp Six, Youbou, and all parts of the island. A very jolly evening was spent and Mr. Thomas, on behalf of the committee, thanked everyone present for helping out the community objective. Mrs. Edgar Morley and Mr. F. Reed kindly played the supper extras.

DUNCAN, April 15.—The death took place in their home in the postoffice building here yesterday of Mrs. Margaret Wilmott, wife of Mr. F. J. Wilmott. The late Mrs. Wilmott was born in England, and has resided in Duncan for the past twenty years. She was aged forty-three years and six months.

She is survived by her husband, Mr. F. J. Wilmott, and two sons, Marjory, and two daughters, Mrs. W. B. Balstone and Mrs. F. Balstone, and two brothers, Mr. W. Purver and Mr. George Purver, who all reside here.

The funeral will be held on Thursday afternoon from Whidder's Undertaking Parlors, to Mountain View Cemetery, Somenos. The Christian Science lecturer will take charge of the service.

"Certain kinds of glasses create the impression that everything is going round," remarks an optician. Other kinds, again, create the impression that everything is going round.

The afternoon junior competition was open only to the three, four and five-room schools of the Saanich district. These schools were conducted as follows: Craigflower, the winning school, by Miss Furr; Mackenzie Avenue, Mr. D. Partin; Royal Oak, Mr. J. H. Harman; Cedar Hill, Miss Chandler. The competing schools took their places on the platform as they were called, and after singing the assigned selections stood quietly until dismissed by the judges, who later came forward and announced their marks with a few constructive criticisms in connection with the various points concerning rhythm, enunciation, attack, tone, intonation, general interpretation, etc. The children themselves showed a very keen spirit, but winners and losers alike took the judges' pronouncements with good grace, the latter invariably applauding their successful rivals enthusiastically.

The intermediate choir, singing in the evening, represented grades three, four and five. The test pieces which they sang were: "Where the Pools are Bright and Deep" and Holst's "Corn Song." The senior choir, representing grades six, seven and eight, were called on to sing Purcell's difficult and interesting "Nymphs and Shepherds" and Schubert's "Spring's Return." Both the winning Cloverdale choirs were conducted by Mr. C. Routley, with Mrs. Ruby Moore accompanying, and the Tillicum School choir were conducted by Mr. G. Love; Miss Huddleston accompanying.

Trustee H. L. Briggs occupied the chair in the evening and extended a cordial expression of thanks to the teachers who had worked so splendidly in the preparation of the children, and to the children themselves, who had shown such a keen and eager spirit in the contest.

In addition to the singing of the competing choirs there were several other enjoyable items on the evening programme, the participating artists being Robert Taylor, piano; Miss Carol Menzies, Mrs. Robert Taylor, and Mr. C. R. B. vocal soloists; Miss Doreen Mills, a very young pianist, and Jean Routley and Joan Barker, who sang a duet.

## COLWOOD BURNS CLUB MEETS

COLWOOD, April 15.—The third annual supper of the Colwood Burns Club was held at the home of Mr. and Mrs. H. Parker, "The Cedars," Lagoon Road.

Four tables of five hundred were played, and the highest scores were made by Mrs. R. B. Murray and Pipe Major Wishart, consolation, Mrs. W. Wishart and Mr. H. Parker, all of whom received prizes. Games and music were also enjoyed.

Pipe Major Wishart was presented with a pair of gauntlet driving gloves as a recognition of the way in which he has so ably assisted in making the club a success.

## HOUSE BURNED AT VESUVIUS BAY

SALT SPRING, April 15.—Last Wednesday, the home of Mr. and Mrs. Young, at the Canal, Vesuvius Bay, was burned down. The fire is supposed to have originated at the back of the kitchen stove. The garden Mrs. Young saw smoke issuing from the windows, but could do nothing to prevent the flames spreading quickly and there was no chance of saving anything. The house was partially covered by insurance.

Mr. and Mrs. Young and son are temporarily in a small house belonging to Mr. and Mrs. J. N. Rogers, at Ganges.

CLOVERDALE TAKES FIRST IN INTERMEDIATE AND SENIOR SINGING COMPETITIONS

Craigflower School Leads Junior Group—Keen Interest Displayed by Big Audience

Choirs from the Cloverdale School had the proud distinction of winning first place both in the intermediate and senior sections of the singing competitions between choirs from the schools of Saanich, held last evening at the Community Hall, Lake Hill. Only two schools competed, Cloverdale and Tillicum. Their marks were as follows: Cloverdale intermediate choir, 170; senior choir, 167; Tillicum intermediate choir, 158; senior choir, 163.

The auditorium was packed to suffocation with an excited throng of children and their parents and friends. Many had attended the competitions in the afternoon also, when only junior choirs competed.

The afternoon junior competition was open only to the three, four and five-room schools of the Saanich district. These schools were conducted as follows: Craigflower, the winning school, by Miss Furr; Mackenzie Avenue, Mr. D. Partin; Royal Oak, Mr. J. H. Harman; Cedar Hill, Miss Chandler. The competing schools took their places on the platform as they were called, and after singing the assigned selections stood quietly until dismissed by the judges, who later came forward and announced their marks with a few constructive criticisms in connection with the various points concerning rhythm, enunciation, attack, tone, intonation, general interpretation, etc. The children themselves showed a very keen spirit, but winners and losers alike took the judges' pronouncements with good grace, the latter invariably applauding their successful rivals enthusiastically.

## Former Prime Minister Here On Business

Right Hon. Arthur Meighen is in the city on one of his periodic visits made in the interests of the financial institutions with which he is now associated since he retired from the political sphere. He is staying at the Union Club, and throughout yesterday held a number of conferences with those interested in the business with which he is associated.

On the way here he conferred with General J. A. Clark, M.P., who is taking the management of the London and Western Trust, and with others who are associated with that corporation.

Mr. Meighen will remain over in Victoria for a few days in connection with business matters, before leaving again for the East.

"Metaphors are the strong wine of literature," says a critic. The trouble is that so many writers mix their drinks.

## INDOOR SEASON AT "V" CLOSED WITH GYMBOREE

Groups of Association's Various Units and Organizations Make Merry

## ASSOCIATE GENERAL SECRETARY PRESENT

Marking the closing of a most successful indoor season, some hundred and fifty members of the local Y.M.C.A., representative of various units and organizations, held what they aptly termed a "gym-boree" in the association rooms last evening. Supper was served, the different activities being grouped at separate tables, while the singing of rousing songs and the performance of various stunts were interspersed with puping addresses by leaders of the organization.

The occasion fitted in nicely with the visit to the city of Mr. E. D. Otter, associate general secretary, National Council, Y.M.C.A., of Canada, who addressed the gathering and described how thoroughly the association was meeting the present day needs of the country's youth, and the advantages they were obtaining through the contacts provided.

Mr. E. Tomlin, president of the Y.M.C.A., presided, and in the course of a brief address told of local conditions and appealed to the loyalty of the members to exert themselves in the effort to increase the membership, present conditions being more favorable to creating an interest in the work of the Y.M.C.A. than at any previous time. During supper a volunteer orchestra rendered a number of selections, following which pupils of Miss Violet Powkes rendered several dances. Mr. R. Morrison sang some songs, while there was community singing in which all joined. Mr. Cecil Heaton presiding at the piano.

## ORGANIZATION FOR HIGHWAY TO BE FORMED

Within sixty days a meeting will be held to form a permanent organization of the International Road Association, whose first duty will be to press the construction of the Alaska-Yukon-British Columbia highway.

Action to this end was taken in Portland on Monday, when leading automobile, good roads, and governmental officials met to consider means to further the linking up of the roads of the northern and southern continent through Central America.

The plan is to link existing roads running south from Fairbanks into Yukon territory, continuing into British Columbia, on to the northern reaches of the Pacific Highway. The United States Congress will be urged to pass the McNary-Sutherland Bill that calls for a commission of six, three each from the United States and Canada, to examine data on the proposed western highway.

This bill calls for \$25,000 for the commission to make its study. The measure has passed both Houses and is now in conference. Telegrams were sent to Washington, D.C., by Dr. E. B. McDaniel, a member of the association's temporary board of directors, urging the final passage.

Much of the highway from tidewater to Fairbanks in Alaska is now in a state of disrepair, and its road programme as rapidly as it can.

Mr. Don S. Dong, who represented the Automobile Club of Southern California, came from Los Angeles to attend the meeting. He declared that his club is for the road so strongly that it has sent a scouting party to map out a western route from Los Angeles to the City of Mexico. He stated that last year the tourist "drop" brought \$322,000 into California.

## The affairs of Beauty

BEAUTY is a heritage belonging to every woman. One of the most tragic facts to beauty is lack of sleep. Try Postum.

**You Can Cope with Father Time**  
One easy and sure step is to stop drinking beverages containing tannin and caffeine. Try Postum.

**When Nerves Cry Out for Help**  
Lashed by the two drugs tannin and caffeine, nerves can only writhe in broken sleep. What else can follow but headaches and fretfulness? Try Postum.

**Don't Rely on Drugs**  
Tannin and caffeine constantly irritate the nerves. Drink Postum regularly. Experience the delight of better sleep, better health—that feeling of glorious youth!

**Millions Drink Postum**  
Instantly made in the cup at a cost of about half-a-cent. 90 cups to a 50c tin. Or there's Postum Cereal made by boiling or percolating 20 minutes.

**Try Postum for 30 Days**  
For 30 days let Postum show you how it banishes sleeplessness. Get it at all grocers', restaurants, your club or on the train.

**At Our Expense**  
We'll start you out on your test by giving you your first week's supply free. Write stating whether you want Instant Postum or Postum Cereal to General Foods, Limited, Sterling Tower, Toronto 2, Ontario.

**Youngsters Thrive On It**  
You know how many children do not like the taste of milk. You know how they like to have the same drink as the "grown-ups". You know, too, how good it is for them to have a hot drink! Make Instant Postum for them, using hot milk (not boiled) instead of boiling water! They'll like the taste immediately! And they will get the added nourishment of milk in a hot drink that is economical and so easy to make.

Their Excellencies Have Busy Time at Vancouver In Filling Engagements

Continued from Page 1  
**TALK TO PATIENTS**  
"I've met you before," said the occupant of one bed as Her Excellency paused to talk to a young girl who was Dora McNaughton, of Cranbrook.  
"We've met twice, have we," laughed Lady Willington, adding, "That means we shall meet in time, so be sure to come and tell me when we run across each other again."  
She engaged in a dozen animated conversations in as many minutes. She inquired after the health of Frank Herman, son of Mr. J. W. Herman, King Edward Avenue—a fifteen-year-old lad who is making a remarkable recovery after a serious operation. In several cases, the distinguished visitor sent her secretary around afterwards to get names and addresses of patients she specially wished to remember.  
**AT ART GALLERIES**  
Her Excellency visited the exhibition at the British Columbia Art Galleries this afternoon. In the evening she dined with Mayor W. H. Malkin at Jericho Club.  
Details of the trip to Northern British Columbia have been definitely arranged. Early on April 22 the party will leave Vancouver on the yacht Cora Marie to travel to Squamish as guests of Hon. W. C. Shelly. They will entrain on the Pacific Great Eastern for the trip to Quenel.  
They will spend April 24 in the Quenel District, driving from there to Vanderhoof, where they will spend April 26. They will probably visit Stuart Lake. Their special Canadian National train will meet them at Vanderhoof and will carry them to Prince George for Sunday, April 27, when they will attend divine service at St. Michael's Church and afterwards leave for Edmonton.

## Miss Madonna L. Newcomb Tells How Cuticura Healed Pimples.

"First my face began to get sore, then after a short time pimples broke out all over it. They were very red and feasted. The pimples itched causing me to scratch, and the irritation prevented me from sleeping. The trouble lasted about two months and disfigured my face. "Other remedies were used without success. I began using Cuticura Soap and Ointment and they helped me, and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Miss Madonna L. Newcomb, Murphy's Cove, Nova Scotia.  
Soap 25c. Ointment 25c. and 50c. Talcum 50c. Sold everywhere. Sample each free. Address Canadian Dept., J. T. Webb Company Limited, Montreal.

## TACHEOMETER IS TOPIC OF EXPERT

Mr. W. H. Connell Tells Land Surveyors How to Use the New Instrument

Addressing the members of the Corporation of British Columbia Surveyors in the Empress Hotel yesterday, Mr. W. H. Connell, of the technical staff of Cooke, Troughton and Simms, Limited, of London and York, told of the advantages to be derived from the use of British surveying instruments.

He pointed out that the number of large civil engineering propositions now to the fore in Canada, was reason enough for any reference he might make to British instruments in producing specialized instruments.

In the optical industry, British inventive genius had been largely responsible for valuable modern developments. The theodolite itself is English in origin and dates from the year 1871.

The war caused a veritable revolution in manufacturing methods

of British engineering, said Mr. Connell. The experiences gained then have been turned to good account. The adoption of the latest production methods have enabled British makers to turn out instruments with which it is difficult to compete. Concurrent with the marked increase in power and scope of the best surveying instruments, a considerable decrease in weight and size of the instruments is noted.

Mr. Connell's firm is identified with the developing of the successful Jefferiot patent direct reading tachometer, which completely obviates the employment of tables, slide rules, computers, diagrams and similar aids upon which other instruments depend.

Mr. J. C. Green, surveyor-general, occupied the chair, and Mr. Connell was complimented for his interesting address.

### WHOLE VILLAGE BURNS

LAIBACH, Yugoslavia, April 15.—The entire village of Kaluka, near Laibach, comprising ninety houses, was destroyed by fire today. The fire started when a child upset a can of fat on a kitchen stove. The child was killed.

Some years ago when Chief Justice Hughes sat in one of the inferior Federal courts, a young lawyer referred to him as "Mr. Justice Hughes." Don't you know, sir," sniggered Mr. Hughes, "that we have no justice in this court?" The young lawyer was dumfounded. He gasped once or twice, then said: "I had—er—always heard so your honor, but I had never believed it."

Nothing could puzzle a certain young man. When asked, "Who formed the first company?" his answer was, "Noah successfully floated a company while the rest of the world was in liquidation."

## ELECTION TO COME BEFORE END OF YEAR

Mr. Bennett Says All Indications Point to Near Approach of General Elections

### CONJECTURE RIFE OVER NEW BUDGET

(Canadian Press)  
CALGARY, Alta., April 15.—"All appearances point to the calling of a Dominion election before the end of the present year," stated Hon. R. B. Bennett on his return to Calgary on Monday following adjournment of the Federal House for the Easter recess.

"I notice that one of the Government supporters in Edmonton has fixed the date on which an appeal will be made to the people, but I doubt if the Prime Minister himself has yet determined that point."

**PENDING BUDGET**  
"The budget will probably be delivered shortly after the Easter recess," Mr. Bennett continued, "and there is much conjecture as to what it will contain. Undoubtedly promises have been made to the agriculturists of Quebec, that a tariff will be imposed on fruits and vegetables, and the iron and steel producers have been assured that their industry will receive protection under the new tariff."

"The action of Australia in imposing a surtax to practically prohibit the importation of many commodities, is justified by the Australian Government on the grounds that the Canadian Government imposed a dumping duty of six cents per pound on importations of butter from Australia, after a treaty had been signed between the Australian and Canadian Governments agreeing to a duty of one cent per pound on these importations. The whole problem of Australasian trade is engaging the attention of the Government at the present time."

## PLANET OR COMET ASKS ASTRONOMER

Director of California University Questions Identity of New Discovery

BERKELEY, Cal., April 15.—Identity of the new astral body discovered by Lowell Observatory astronomers in Arizona last January as the lone-sought transneptunian planet, was challenged today by Director A. O. Leuschner, of the University of California student observatory.

While agreeing with the discovery that the object is beyond Neptune, Professor Leuschner declined to accept it as the ninth member of the planetary family.

Professor Leuschner said the new sky-wanderer might be a large asteroid, a long period planetary object, or possibly a comet, adding, however, that its discovery was of great significance because it extends the limits of the solar system.

Professor Leuschner said the Swarthmore Observatory computation indicated the orbit of the object had an eccentricity of .9909. This means, Professor Leuschner explained, that the orbit is a flat ended ellipse, with one twenty times as distant from the sun as the other.

## Homeless Men of Ontario City in Search of Beds

NORTH BAY, Ont., April 15.—Unemployed and homeless transients, about sixty of them, parked on the steps of the municipal building here last night, waiting patiently for the council and board of trade to complete their discussion of power problems, so they could take possession of the council chambers for the night. So many boarders have invaded the police cells during the last few weeks it has been found necessary to press the council chamber into service to accommodate the homeless.
